This woman says that sick women should not fail to try Lydia E. Pinkham's Vegetable Compound as she did.

Mrs. A. Gregory, of 2355 Lawrence St., Denver, Col., writes to Mrs. Pinkham:

"I was practically an invalid for six years, on account of female troubles. I underwent an operation by the doctor's advice, but in a few months I was worse than before. A friend advised Lydia E. Pinkham's Vegetable Compound and it restored me to perfect health, such as I have not enjoyed in many years. Any woman suffering as I did with backache, bearing-down pains, and periodic pains, should not fail to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

DESERVED TO WIN HIS CASE.

Really Able Argument Put Forward by Accused Sailor.

A very good story has recently been told in the fleet of an incident which happened when Admiral Evans was in command of the Indiana. An old-time bluejacket was at the mast before Capt. Evans, charged with getting food out of a mess chest outside of meal hours. This getting of food for night watches is a common and strong desire on the part of most men aboard ship.

Capt. Evans asked the man what he had to say, and the man, sizing up the delicate situation, said:

"Captain, I didn't take no food outer that chest. Why, captain, there weren't no food in that chest! I looked in that chest, and, captain, I met a cockroach comin' out of that chest with tears in his eyes."—Harper's Weekly.

TONY SURELY APPRECIATED THAT MOUNTAIN DEW.

Gift of Liquor That Took the "Rough Aidge" Off Spring Water Well Repaid by His Witty Observation.

No one had a legal right to sell liquor in the big county this particular piny woods district lay in, and the enforcement of the prohibition enactment was very strict. Tony, a grizzled old negro who, with his bull and his cart, did chores about the inn and elsewhere, had always a merry twinkle in his eye, and he had wit and humor. A guest at the inn met Tony in one of the woods roads one day, and referred to the remarkable salubrity of the piny woods country, and particularly to the exceeding dryness of the air and absence of all unwholesome moisture in the soil.

"Yes, suh," he replied. "I'nevuh did heah, see, or know o' but one ting dat been so pow'ful dry, suh."

"Indeed!" said the guest. "And what was that, Tony?"

"Me, suh!" said Tony, his white teeth shining from the grin that spread over his face and met the twinkle in his eye.

"Why, that is strange, Tony," said the guest, affecting not to notice the hint, "in a land so full of springs as the pine hills of North Carolina seem to be."

"Dat's des' it, suh!" said Tony. "Duh bean oodles o' springs roun' hyuh, sho'ly, an' it's a shame wat a pow'ful heap o' good watuh we po' folks des' boun' to see run to waste cuz we ve'ain't got nuffin to mix wiv it any mo', to sot o' take de rough aidge often it, suh."

Tony evidently knew that if the guest had any such thing about him, which was more than likely, the chances were that it could not be kept under cover from that twinkle and that grin of his; and it wasn't, there being one of those springs handy. The "aidge" on its water must have been particularly rough, for the taking of it by Tony almost emptied the guest's flask. The old negro smacked his lips as he handed it back, and said:

"It's a mighty good ting fo' dem chillun ob Isr'el, suh, time dey bean wand'rin' froo de wild'ness, tryin' to git out, dat de manna wat done fall to help 'em on dey way didn't be likened dis hyuh mountain dew o' yo'n, suh! Girl Telegraphers in India.

Acting upon the recommendation of the telegraph committee, the Indian government has authorized the employment of woman operators.

The candidates must be between 18 and 30 years of age, and they must be unmarried or widows. They must undergo a training of 12 months in the telegraph training classes, during which time they will receive $6.65 a month, the same allowance that is drawn by male learners.

Selected candidates on leaving the training classes will be on probation for one year. Upon appointment they will receive salaries varying from $10 to $26.65, which are very large upon the scale of living expenses in India. There will be pensions, with no liability to transfer; but resignation will be compulsory in the event of marriage. —Harper's Weekly.

Waterproof Wall Covering.

The best way to make a tinted wall waterproof is to first-use a tinting material that is natural cement with no glue in it—one that will not require a glue size on the wall. After this natural cement is applied directly to the plaster, thoroughly cover it with water enamel, and then, after the water enamel has dried in, give it a thorough coating with any good varnish. This will make a perfectly impervious wall, which steam, water or heat will not affect. The expense of putting on this material in an ordinary bathroom in addition to the regular tinting material would amount, perhaps, to two dollars, depending, of course, upon the size of the room. Portions over sinks and washstands may be treated similarly.—Success.

Thought It Amatory Offer.

Out in one of the suburbs of Boston a Swedish girl attended evening service at a church where they have a young and zealous minister, and where and by whom she was more hospitably welcomed. According to her view, than she expected to be. Relating her experience at her employer's home, this was the way she told it: "When all was done the singing and praying, the minister he came on the floor an' tak' do folks by de han' and talk a liddle wit' den ha-way. May I call on you some evening?' But I say to him I haf already yet one' feller. Den he laf a liddle and speak some more to oder girls."

Earliest Mention of Gold.

The earliest mention of gold is in the second chapter of Genesis, where it is referred to as one of the metals of the land of Havilah. The mines which supplied the coinage of the ancient world were in India. Solomon's sailors brought gold from "Ophir," an unknown land by many thought to be Mashonaland, in South-Central Africa, where ruins of prehistoric Semitic forts and mine shafts have been found. —Harper's Weekly.

Sign of Trouble.

"No, sonny," drawled the old farmer, "there is only one stamp language I understand."

AT A CRITICAL TIME.

Women Are Likely to Suffer with Dangerous Kidney Disorders.

Mrs. John Kirk, R. F. D. No. 2, Detroit, Mich., says:

"Five years ago at a critical time of life I was on the verge of a collapse with kidney troubles, backache, dizziness, puffy dropsy swellings and urinary irregularities. I lost flesh and felt languid, nervous or unstrung all the time. As my doctor did not help me I began using Doan's Kidney Pills. In a few weeks all these symptoms left me. I now weigh 163 pounds and feel in excellent health."

BOY KEPT SCRATCHING.

Eczema Lasted 7 Years—Face Was All Raw—Skin Specialists Failed, But Cuticura Effected Cure.

"When my little boy was six weeks old an eruption broke out on his face. I took him to a doctor, but his face kept on getting worse until it got so bad that no one could look at him. His whole face was one crust, and must have been very painful. He scratched day and night until his face was raw. Then I took him to all the best specialists in skin diseases but they could not do much for him. The eczema got on his arms and legs and we could not get a night's sleep in months. I got a set of Cuticura Remedies and he felt relieved the first time I used them. I gave the Cuticura Remedies a good trial and gradually the eczema healed all up. He is now seven years old and I think the trouble will never return. Mrs. John G. Klumpp, 80 Niagara St., Newark, N. J., Oct. 17 and 22, 1907."

Ready to Pay Fine.

"I know where $3,000,000 in cash lies concealed," said a New York lawyer. "This vast sum lies concealed in the inside vest pocket of the 20,000 automobilists of New York state. Each man carries $100 of it in one crisp note, ready to be paid out in a fine, if he should be arrested for speeding. Fines, though, don't appear to stop speeding," he continued. "Perhaps the rich automobilist regards them much as the Siwabian wood thief did. The thief was arrested. The magistrate said to him: 'You are brought up on the charge of stealing wood. This charge has been proved against you. But you are old and poor and you shall be let off this time. Only don't do it again.' Nonsense!' retorted the thief. 'Let us not have any false sentimentality here. I steal my wood. I pay my fine, and there's an end of it.'"

Economical Physician.

Ambassador Wu Ting-fang was once, it is alleged, telling about a certain selfish politician. He said: "The man reminds me of a doctor of Shanghai. A mandarin came to this doctor for advice. He could not sleep, had no appetite, suffered a good deal from indigestion and nevertheless was taking on fat at an alarming rate. 'Well soon put you in condition again,' said the physician. 'What you need is exercise, good, hard exercise. Four times a week you can come here and pat in the morning polishing my floors.' 'But why not my own floors?' the mandarin inquired. 'Mine,' said the physician, 'are larger.'"

Hanging Scaffolds.

With the modern sky-scraping office building has come a new form of building scaffold. Instead of constructing the scaffold from below, which is impossible in the cases of buildings ranging from 10 to 50 stories high, platforms are suspended from the steel girders above. On these swinging platforms the bricklayers work and the scaffold is raised as the work progresses.—System.

CHANGE IN FOOD

Works Wonders in Health.

It is worth knowing that a change in food can cure dyspepsia. I deem it my duty to let you know how Grape-Nuts food has cured me of indigestion.

"I had been troubled with it for years, until last year my doctor recommended Grape-Nuts food to be used every morning. I followed instructions and now I am entirely well.

"The whole family like Grape-Nuts, we use four packages a week. You are welcome to use this testimonial as you see fit."

The reason this lady was helped by the use of Grape-Nuts food, is that it is predigested by nature's process and therefore does not tax the stomach as the food she had been using; it also contains the elements required for building up the nervous system. If that part of the human body is in perfect working order, there can be no dyspepsia, for nervous energy represents the steam that drives the engine.

When the nervous system is run down, the machinery of the body works badly. Grape-Nuts food can be used by small children as well as adults. It is perfectly cooked and ready for instant use.

PRACTICAL QUESTIONS FOR LIVE STOCK OWNERS

BOOK ON HOGS AND HORSES

Question:—"Can you tell me where to procure a reliable book about hogs and horses? My bread and butter is dependent upon my keeping my animals in good health and would much appreciate a reply to this question."—*C. C. L., Mich.*

Reply:—We take pleasure in referring you to two new books just published, one on hogs and one on horses. These are usually sold for 25c apiece, but if you write to the Pratt Food Company, Department "R," Philadelphia, they will send you copy without charge. The books are the most practical we have ever seen.

HORSE OFF HIS FEED

Question:—"I have two valuable horses which will not eat and seem to be in poor condition. Can you tell me something that will put them in good shape?"—*M. D. P., Mich.*

Reply:—There is nothing very serious the matter with your horses except general run down condition, which is somewhat usual at this season of the year. We recommend a good tonic and probably the best thing you could use would be Pratts Animal Regulator, mixing it twice daily with their regular feed. This is an old reliable remedy and we give it our hearty endorsement.

SCRATCHES

Question?—"I have a young horse troubled with scratches. Please advise how I can cure him."—*A. S. D., Mich.*

Reply:—Clip hair off sores and wash with castile soap, apply Pratts Veterinary Healing Ointment twice daily. This is a positive cure.

DISTEMPER

Question:—"My eight-year-old horse has distemper. He is in fairly good health but perspires freely when working and occasionally sweats in stable."—*J. B. O., Mich.*

Reply:—If you are working him regularly, would suggest that you increase his grain allowance and also buy a reliable Distemper Cure. We can heartily endorse Pratts for the cure of this disease.

MORE MILK

Question:—"I am having great trouble in getting milk from my cows, although they seem to be in general good health."—*N. B. R., Mich.*

Reply:—All your cows need is probably a good spring tonic and from experience, we know Pratts Animal Regulator is most beneficial for putting the animals in good shape and increasing the flow of the milk. Mix it in the feed twice a day.

COMPLAINTS ABOUT PAINT.

The time to complain about paint is before the painter applies it. The man who puts up the money should not shirk the responsibility of choosing the paint. True, the painter ought to know paint better than the banker, the professional man or the merchant. The trouble is, the housewife too often deliberately bars the competent and honest painter from the job by accepting a bid which he ought to know would make an honest job impossible.

Secure your bids on the basis of National Lead Company's pure White Lead and pure Linseed Oil and see that you get these materials.

No one need be fooled by adulterated white lead. A blowpipe testing outfit will be mailed to anyone interested in paint.

The Coloring Matter.

Dr. Harvey W. Wiley, the government's famous food expert, was talking about the adulteration of wines.

"One day," he said, "I heard a wine salesman discussing a new price list with his father. The father was going to buy some wines. He turned page after page of the list, picking off his selections with a pencil.

"'Look here, son,' he said, 'how is it that your red wines are all dearer than your whites?'

"'Why,' said the son indignantly, 'do you think that crimson lake costs nothing?'"

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

A Kansas Girl's Advice.

A Lincoln county girl writes this advice to the Kansas City Star: "Why do young men do so much loafing? Go to work. Push ahead! I am but a young girl, but I clothe myself and have money in the bank. I lay up more money every year than any young man within three miles of my home. When they get a dollar they go to a dance and go home a dollar out. I advise all girls to cut clear of loafing boys. Stand by the boy who works, and never put your arm through the handle of a jug."

You Would Not Accept Counterfeit Money, Why Accept Counterfeit Goods?

Good money is made by the Government in which you have implicit faith and confidence. Good goods are made by manufacturers who are willing to stake their reputations on the quality of the material offered to you through the medium of their advertisements in this paper. Counterfeit goods are not advertised. The reason for it is they will not bear the close scrutiny to which genuine advertised goods are subjected. Counterfeit money pays more profit to the counterfeiter. Counterfeit goods are offered to you for the same reason.

What is Pe-ru-na?

Is it a Catarrh Remedy, or a Tonic, or is it Both?

Some people call Peruna a great tonic. Others refer to Peruna as a great catarrh remedy.

Which of these people are right? Is it more proper to call Peruna a catarrh remedy than to call it a tonic?

Our reply is, that Peruna is both a tonic and a catarrh remedy. Indeed, there can be no effectual catarrh remedy that is not also a tonic.

In order to thoroughly relieve any case of catarrh, a remedy must not only have a specific action on the mucous membranes affected by the catarrh, but it must have a general tonic action on the nervous system.

Catarrh, even in persons who are otherwise strong, is a weakened condition of some mucous membrane. There must be something to strengthen the circulation, to give tone to the arteries, and to raise the vital forces.

Perhaps no vegetable remedy in the world has attracted so much attention from medical writers as HYDRASTIS CANADENSIS. The wonderful efficacy of this herb has been recognized many years, and is growing in its hold upon the medical profession. When joined with CUBEBS and COPAIBA a trio of medical agents is formed in Peruna which constitutes a specific remedy for catarrh that in the present state of medical progress cannot be improved upon. This action, reinforced by such renowned tonics as COLLINSONIA CANADENSIS, CORYDALIS FORMOSA and CEDRON SEED, ought to make this compound an ideal remedy for catarrh in all its stages and locations in the body.

From a theoretical standpoint, therefore, Peruna is beyond criticism. The use of Peruna, confirms this opinion. Numberless testimonials from every quarter of the earth furnish ample evidence that this judgment is not over enthusiastic. When practical experience confirms a well-grounded theory the result is a truth that cannot be shaken.

Manufactured by Peruna Drug Manufacturing Company, Columbus, Ohio.

I Am REYNOLDS, the Roofing Man

I have been in the roofing business for 40 years and they call me the "Pioneer." I have been in no other business.

I know the roofing business; have made a scientific, practical study of it. I am at the head of my company, of which I am proud. I have also made a success of my business. The result has been our two brands Torpedo and Wolverine. The red granite kind, which are the very best brands of roofing on the market today at any price.

This roofing will last longer; is cheaper to lay and cheaper in the long run than any other you can buy.

If we could make a better roofing, we would; but we can't. You will make no mistake in using it.

It only costs about half what shingles would cost laid on the roof.

We will give you an absolute guarantee that our roofing will last you five years. We know it will last for 12 or 15 years, but five years guarantee is enough to make and we say five years simply to show faith in our own roofing.

It costs us $100.00 to find out that our kind of roofing was better than the other man's. The difference is this:

Our roofing is made of crushed, irregular shaped granite particles put on two heavy sheets of asphalt felt cemented together. These particles of quarry granite have sharp points and sharp edges and stick into this asphalt for evermore.

You can easily understand why they will stick a great deal better than the round, smooth little pebbles, which are sometimes used.

The granite is to protect the roof from sun, wind and rain, and our granite does protect it.

Do not buy a roof that will need painting. It means there is a weakness somewhere. You don't have to paint a Reynolds roof.

We have so much to tell you about our roofing that we cannot begin to do it here, but want you to write and let us tell you just why our roofing is what you want and why you cannot afford to buy any other.

We have a liberal proposition to make to you, and we want to know much you may know about some other roofing you should get our proposition. It means a saving.

This roofing is put up in one square roll, all ready to lay and securely packed inside of the roll are the trimmings consisting of galvanized iron nails and cement in a can with directions how to lay the roll.

Give us all the information you can about the roof, and we will tell you something that will interest you. WRITE US TODAY.
