One step wouldn't take you very far—you've got to keep on walking; one word won't tell the folks what you are—you've got to keep on talking; one inch won't make you very tall—you've got to keep on growing; one little "ad" won't do it all—you've got to keep 'em going.

The report of the poor commission showed that during the year 111 persons are maintained at the county home of which 82 were males and 29 females. The number of inmates September 30 was 68. "American women" of today, compared with the women of 1776, is a fine article in the November American. It's worth considering. "Slavery in Mexico?" Yes, so near. Read it in the American. The benefit of judicious advertising in *Shain's* gold fish promotion which he offered through a chain of advertising sales in this paper and handbills last week. He offered 150 gold fish globes containing two of these beauties, a box of food, pebbles and some green vegetable growth for 10c. Sale opened Saturday and all were sold by 9 o'clock a. m. Mr. Shain informs us that he had had 150 more all would have been sold. It pays to advertise.

The Secretary of State's department has decided upon the style of automobile license tag which Michigan owners of cars must have on their machines after January 1st next. Each automobile owner is given two tags upon the payment of the license fee of \$3. They are three sizes and tags which are made of metal, and have a white background, with the number of the license in black. Also the number of the year 1910 and the state seal are placed upon the tag. The tags are manufactured by a Chicago company and each tag will enter into a contract for 30,000.

Dear girls, don't be so often wishing you were grown up when that you neglect your girlhood. In the rush and hurry of these fast times, there is danger that you will reach and strain after young ladyhood too much. Be girls a while yet—tender, joyful, loving, obedient and industrious. Womanhood, with its privileges and power, its burdens and heartaches, will come soon enough. Of this point one has said: "Wait patiently, my children, through the whole limit of your girlhood. Go not after womanhood; let it come to you. Keep out of public view. Cultivate refinement and modesty. The cares and responsibilities of life will come soon enough. When they come you will meet them. I trust, as true womanhood. But, oh, be not so unwise as to throw away your girlhood. Rob not yourself of this beautiful season which, wisely spent, will brighten your future life."

The frontage is 900 feet on the former and 190 on the latter, and is as fine a piece of vacant land as can be found in the city, and sold at a price passing \$100,000. When it was finally decided to go ahead with the hospital project, the promoters instructed Judson Bradley to look after their consideration available sites in various sections of the city. Bradley did so, including in the list the woodland property which was eventually chosen and he was instructed to buy.
