Unless you know that the depth of the water is sufficient, look before you leap for one of those graceful dives of yours which are so greatly admired by your friends.

The fact that the emperor of Austria has made a Baltimore girl a princess only emphasizes the fact that nature has made all American women queens in their own right.

The Crown Prince of Germany has been making a mistake in the world of soap. That is a little thing to look prey in such eminence, but nowadays nobody is safe from getting "stung."

Now that the emperor of Austria has made an American girl a real princess a near-miracle of fortune can marry her without losing caste. The young woman's name, however, needed no social white-wash.

It is impossible to divorce capital and labor in the public consideration. Either without the other, or together, and when both are working in harmony, as at present, the largest measure of profitable accomplishment is possible.

The law has its oddities and humors as well as other professions. It is an instance of the former that the misfortune which befell a judge in Georgia who was put in jail for failing to break into a house to steal his own wife.

The Colorado School of Mines expects, if it can procure the necessary funds, to produce railroad iron before the end of the present vacation. Colorado is a wonderful state, whose mineral resources constitute one of the richest natural treasures of the world.

A German princeling has announced that he is coming to this country to marry a rich American wife, so he can pay his debts. Our national pride will be hurt by the announcement that all he has to do is to come over and pick out a bride with a fortune, not unfortunately precedent shows that this foreign princeling our American girls is based on facts too strong for denial.

As "hassenpfeffer" is a favorite German viand, those who here indulge in it have a warning at the beginning of the season for rabbits in N. J., had 23 No. 8 birds shot in his appendix, which was removed, and he was very attack of appendicitis. He had eaten "hassenpfeffer" which included a rabbit that was well riddled with shot.

The practical Germans are quick to seize a chance and turn it to account. They propose to establish an airship school at Friedrichshafen, the home of the Zeppelin, where the young idea may be trained. The course of instruction will occupy two years and the graduates will be named aviators and not pilots, as degrees as aeronauts will yet be given by our universities and colleges?

President Taft has refused pardon to a man convicted of subornation of perjury. This crime is one which should be the last to appeal to any clemency. It is deliberate, cold-blooded and it strikes at the very roots of the law as a power property of the state, from crime and criminals. The city of the oath is the stronghold in which the law must trench itself. That broken down, no security is left.

It is true that all wealth comes from labor, but not necessarily from labor by the hands. The thinkers of the world have added instinctively to its development. It was a portrait painter who invented the camera, a college professor who produced the telephone, and the list might be extended almost indefinitely. It is well that with all our inventions and rest and play, that we remember that it is intelligently directed energy of the hand that makes man better and helps to give the world to the millennium day.

Dr. Jean Charcot's experiment started a year ago for the south. You hear jubilant whoops from that direction presently you will know that they mean.

Six hundred Chinese students have been examined for American college courses. They will be paid out of the Boxer bond by the United States. Hundreds of hours keepers in working conditions, higher education will live to approve of the nation's generosity.
