We take this method of informing the people of Royal Oak and vicinity that the intent of this Company is to DO BUSINESS, and do it in such a manner that "once a customer always a customer." We treat all patrons alike, and whether you wish for the price on a board or a carload of Lumber your desire will be attended to promptly, and in a satisfactory manner. Our yard is in the new and large building on the premises known as the HERRING PROPERTY, and we keep on hand at all times everything needed by the builders and citizens of Oakland and Wayne Cos. We handle

Coal, Wood, Lumber, Lime, Cement, Plaster, Fence Posts and  
Fencing, Hair, Cement Blocks, Brick, Sewer Crock, and  
**HARDWARE OF ALL KINDS**

Notwithstanding that we have the largest building of its kind in Oakland County, where everything in the Lumber line is under cover, you can drive right in the shed and under cover put on your load and have everything clean and dry. Besides this big building we are overstocked and have not room to convert our stock into the shape we desire, and MUST REDUCE OUR STOCK OF LUMBER and will make prices that will reduce our stock immediately. BE SURE TO GET OUR PRICES BEFORE BUYING ELSEWHERE.
