## Heart Troubles

The heart may be weak just the same as the eyes, stomach or other organs. It often happens that a person is born with a weak heart. Then again disease, fevers, over-exertion, anxiety, nervousness, rheumatism, etc. weaken the heart. The result is shortness of breath, palpitation, pain in the heart, or in some of the nerves of the chest or abdomen. The heart should be strengthened with a tonic, and for this nothing equals **Dr. Miles' Heart Cure**.

"I had Lycopodium felt all at a thought in a mild form. I was weak, tired feeling and short of breath. I could hardly go about and I had breathing, and extreme nervousness. I tried many things, but Dr. Miles' Heart Cure cured me and now I feel as well as I ever in my life. I can do anything that I want to do, and I shall not hesitate to tell others how much good it has done me."

It's a pity when sick ones drug the stomach or stimulate the heart and kidneys. That is all wrong! A weak stomach means weak stomach nerves, always. And this is also true of the heart and kidneys. The weak nerves instead of crying out for help. This explains why Dr. Shoop's Restorative is promptly helping stomach, heart and kidney ailments. The Restorative reaches out for the actual cause of these ailments—the falling "inside nerves." Anyway, test the Restorative for 48 hours. It won't cure so soon as this, but you will surely know that this is coming. Sold by Charles J. Shain.
