# WASTING NEWS!

The Following Telegram, from the Comptroller of Currency Tells Its Own Happy Story.

WASHINGTON, D. C., Oct. 18, 1910.

Almonr Whitehead, President, The First National Bank of Birmingham, Birmingham, Michigan.

The First National Bank of Birmingham, number, ninety eight seventh floor, authorized to commence business as charter market.

(Signed, M. J. FOWLER, Deputy Comptroller.

The officers and stockholders have reason to congratulate themselves upon the favorable result of the recent examination when they stop to consider the fact that the Comptroller, has within the past year refused charters for National Banks of one hundred and eighty two applications as the condition existing at the hands of the applicants would not warrant the issuance of a charter.

The actual business of the bank, will not commence before the first of November, as many of the new books and fixtures are still in the hands of the lithographers and printers.

In the meantime the Exchange Bank will continue in business as usual until the business has been merged into the new bank.

# SHOCKING THE CHILDREN

Nervous System is Often Seriously Injured and Harmful Effects Result in Later Years.

A shock to the nervous system of a little child is sometimes so injurious that years afterward the harmful results are apparent. Even if the temporary effects be considered, the importance of protecting the nervous system in infancy is to be recognized by parents or by all who associate with children. They should never be frightened by loud noises or unusual sights.

As a rule, the more quiet a baby is kept during the first year of its life the better chance it has for a life of health and happiness. The fact that so large a proportion of the human family die in infancy is due largely to the folly of nurses and the ignorance of mothers.

Overbright babies do not commend themselves to physicians, who know that the first year of a child's life should be spent largely in sleep. All efforts to arouse the dormant mind of a child at this period are attended with danger. The foolish practice of tossing a helpless baby in the air while it screams both with fright and delight is a most dangerous one.

A physician with a large practice tells the story of a precociously bright child which showed evident delight when tossed in this way by a doting father, who was accustomed to play with it every evening. The child trembled with delight when the night's frolic was over, but one evening from this trembling it passed into a spasm, the first indication of one of those fatal brain diseases against which medical science is helpless.

Mother nature generally pursues her course in quiet, unobserved ways, and any attempt to introduce the unusual and to shock the little baby cannot but result disastrously.

Teaching Correct Speech.

A woman of culture, and travel has made a glorious success teaching correct speech. It is surprising how much incorrect speech there is among our educated people. They cling to provincialisms, incorrect pronunciations, wrong use of words, and unusual intonations. The southern holds to the soft, rife utterance of his "mummy" days; the middle western flattens his vowels; the Bostoner throws his r's completely out of joint. This woman undertook to cure such errors and teach a pure, perfect English speech to a few young women. She became so successful that she was compelled to start a school of correct English which has grown to great proportions. This particularly promising field is open in every town in America.—The Delineator.

# 1910 FALL OFFERINGS

## Underwear, Hosiery, Etc.

This Fall I have selected a line of Underwear that cannot be excelled at the price. I have paid more than is generally paid for garments to retail at the prices, but I want my patrons to receive more for their money than they can obtain elsewhere.

### FOR MEN

A great value is a thick, heavy Wool Plush Garment for men, with a soft plush lining (not a fleece) for their tender skins. An extra wide band down the front makes it almost double-breasted. If it is comfort and warmth you want, this great value, \$1 a garment, should interest you.

My leader is a Double-breasted Shirt with Drawers to match, warranted strictly all wool for \$1 a garment. While I pay more for this garment than is usually paid for Underwear to sell at \$1.00, yet I could hardly believe the prices I was offered this fine quality. It's certainly a wonder at \$1, and those who want protection for weak lungs should hasten to avail themselves of this splendid offering before it is gone.

Strictly All-Wool Scarlet Underwear, \$1 each.

For those who want something finer, and who have, perhaps, been paying \$2.00 or \$2.50 a garment, I offer a fine soft, All-Wool Underwear for \$1.50. It's really a good \$2.00 value. It's solid comfort for cold, wintry days; wearing it is like taking the walls of a warm room outdoors with you—a full protection from cold, icy winds.

Extra heavy and very firmly-woven, Double-breasted Shirts, with Drawers to match, wool fleeced, at 50c.

A small lot of 45c Heavy Jersey Fleeced Shirts and Drawers for only 30c each.

### WOMEN'S WEAR

Ladies' Jersey Ribbed Vests and Pants, heavily fleeced, special at 25c a garment. While they last, a lot of extra fine Jersey Vests and Pants, as fine and soft as silk; an extra special value at 45c a garment.

I have here mentioned only a few of the extra good values I am offering. There are several lines of Women's Union Suits at 50c and up; also Men's Union Suits.

Ladies' Wool Underwear—jersey-ribbed and flat goods—at \$1, as well as other superior values in good Underwear for Men and Women.

### CHILDREN'S UNDERWEAR

You should buy early, while the assortment of sizes is complete. Children's Fleeced, Jersey-ribbed and Wool Underwear at the right prices—70c and up, according to size.

### SWEATER COATS

From time to time I am receiving large shipments of Traveling Men's Samples of Sweater Coats. These being samples are, of course, the very best in quality, but having been handled and somewhat mussed up I buy so as to sell at 25 per cent off the usual price. Thus 25c qualities go at 19c, \$1.00 qualities go at 75c, \$2.00 qualities go at \$1.50.

And so on. Men's, Women's and Children's are included in the lot. It's a waste of money to pay full prices for Sweater Coats as long as you can here get samples, which are the best, at 25 per cent or more below regular prices.

### HOSIERY

Such Hosiery values as I offer will surprise you. With a trade that has about doubled in volume, and without an increase in expense, I am putting the gain into giving still better values than heretofore, and this will show itself very plainly in my Hosiery offerings in cotton and wool, for Men, Women and Children. I will mention only a Heavy Wool Sock at 25c. It's about perfection. It's nearly all wool, and yet it has a softness for comfort and a firmness for wear that makes it an extraordinary value at even double the price.
