An exchange says the only way to tell toadstools from mushrooms is to eat them; if they kill you they are toadstools; if they don't kill you they are mushrooms. We think the safest thing to do is to cast the word mushrooms into oblivion and then call all of these fungi toadstools.

By appointments made this week by the M. E. conference many changes are made in Methodist assignments throughout the county. Rev. H. H. Hough, the popular pastor of the Oxford M. E. church, is assigned to Royal Oak, much to the regret of the entire village. He will be succeeded here by Rev. W. H. Smith. The assignment of Rev. Hough to Royal Oak comes as a great surprise to this village. Hough was a talented, clean cut young minister who had won a warm place in the hearts of the people of this village inside and outside of the church as well, and much regret is felt that the conference did not see fit to return him to Oxford for another year.—Oxford Leader.

Died at her late home two miles west of this village Thursday, Sept. 29, Mrs. Sophia Granzon, aged 71 years. Mrs. Granzon had been a resident of this township for a great many years coming here when it was almost a wilderness. She was the mother of 10 children, seven of whom survive. The funeral was held from the German Lutheran church Sunday at 2 p. m. and the remains were laid to rest beside those of her late husband in Royal Oak cemetery. Thus one by one are the old pioneers passing to their reward.

The Woman's Christian Temperance Union held their regular monthly meeting Friday afternoon, Sept. 30, at the home of Mrs. Brace on Center street. About 20 ladies were present. Mrs. Percy Parmenter was elected reporting delegate to the county convention which is to be held early in November. A committee was appointed to look after the collection of papers which many of our people have saved for the union. Old newspapers, magazines, wrapping paper, etc. will be accepted. In collecting these old papers there is a two fold object in view, it helps you to get rid of something you do not want and it helps the union to raise a little money for local work. Mrs. Parmenter, Mrs. Bowers and Mrs. Groves were appointed to arrange a program for the coming year's work. Short sketches on the life and work of Frances Willard were read and a short talk was given by Mrs. Whitney, of New York, who is here visiting her daughter, Mrs. John Starr. This society meets the fourth Friday of each month and is always glad to welcome all who are interested in the course. It makes no difference whether you are a member or not. You are welcome.

Forced to Leave Home.
Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. H. Nelson, of Calamine, Arkansas, "when all else failed and I gained 47 pounds in weight. It's surely the king of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for coughs, colds, in grippe, asthma, croup—all throat and lung troubles. 50c and \$1. Trial bottle free at C. J. Shain's and Cobb-Stanley-Harris Co.'s.

An Earth-Quake.
At the Potsdam observatory, Mr. O. Hecker, after several years' study with horizontal and vertical pendulums, announces the existence of periodic movements in the mass of the earth, originating like the ocean tides in the differential attractions of the sun and moon, and following similar laws. The average change of level produced is said to be about eight inches. It is not certain that this can have any perceptible effect on the occurrence of earthquake phenomena.

ROYAL OAK CLUB

Notes from the Woman's Club Which Meets Every Two Weeks On Monday Afternoon

The Royal Oak Woman's club held their first meeting of the season last Monday afternoon at the home of Mrs. H. S. Gardner. This was president's day so the meeting was held at the home of the president and the following program was carried out.

Greeting from the president. Greetings from ex-presidents. Only two ex-presidents, Mrs. Wilcox and Mrs. Smith were present. They both responded in pleasing manner.

Mrs. Kidder gave a memorial sketch of the life of the first president, Mrs. Frances Lathrop Martin, who met an untimely death a few years ago. The Royal Oak Woman's club owes its existence to the timely efforts of Mrs. Martin. It was she who organized it and shaped its course and the present members are endeavoring to make the club a power for good in the community and thereby honor the memory of its founder.

After a brief discussion of current events the club adjourned, after which dainty refreshments were served and a delightful social hour was spent in discussing plans for the coming year. The club expects to do more this year than merely carry out the work as outlined in our program.

The next meeting is at the home of Mrs. Beach.

Recently interviewed, he says: "I suffered a long time with kidney and bladder trouble and used several well-known kidney medicines, all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches.
