WATCH THE CAPITOL BUILDING FALL.

Further information regarding out big window display of U. S. capitol building in soap.

The people of Birmingham are still wonderfully overestimating the number of cakes of soap in our window. To bring everyone within reason, so all may come nearer the exact number of cakes, so that you stand a reasonable chance to secure one or more of $55 worth of prizes we give away. During this week, we will sell direct from the the window, thus quickly showing how deceptive this display is built. Come as often as possible and carefully watch the tearing down of the capitol building, so you may correct your previous estimates by new purchases where you have overestimated.

Remember the price of each cake continues 5c a cake instead of 25c a cake and the prizes to be given away are valued at $55.

Philosophy of Epietetus.

Nature has given to men one tongue, but two ears, that we may hear from others twice as much as we speak.—Epictetus.

Crow Disseminator of Disease.

Another reputation is gone. Modern research has, according to a colonial office report, proved carrion crows to be disseminators of disease instead of useful scavengers, and they are no longer to be protected in the towns of British Guiana.

AN ITALIAN DINNER

DECORATIVE DINING ROOM IN THE NATIONAL COLORS.

Menu: Queen's Rice Soup, Salmone Alla Santa, Florentina-Salmon, Sweetbreads and Fillet of Beef.

In a certain fortglhtly club of young married folk, where a friendly rivalry exists as to who shall give the most novel entertainment, one youthful housekeeper made her function a dinner in Italian style.

The table was decorated to suggest the flag of Italy. Two broad bands of silk, one green, one red, were placed across the cloth at the ends of the table. They hung over the edges of the board like scarfs. The centerpiece consisted of blue, red and white flowers arranged by a florist to represent the shield which occupies the central white field.

At the head of the menu was written the name of the guest to occupy that particular cover, thus making it a guest card also.

The menu ran:: First, Zuppa Regina Di Riso, or queen's rice soup, for which this is the recipe: A tablespoonful of rice flour is put into a saucepan and half a pint of milk is added gradually. Boil gently in a double boiler 12 minutes, stirring from time to time in order to have it very smooth. Just before serving time add a tablespoon of butter, pass it through a sieve and mix with good fowl stock, which should be very hot when added.

Salmone alla Santa Florentina—Salmon. Steep a piece of boiled salmon in oil, lemon juice, salt and herbs for an hour. Remove the bone and cut the fish into fillets or individual portions. Wipe dry the fillets, dip them in beaten eggs and fry them a nice color. Arrange them in a ring on the dish, trim with fried parsley and serve with mayonnaise.

Animelle Lardellate—Sweetbreads. For the entree two sweetbreads are blanched, larded and cooked very slowly in good stock. The stock is skimmed and reduced by boiling to a glaze to cover the meat. The latter is then cut into three or four pieces and arranged round a dish, but the larding must be well glazed over. In the center of the dish place a cup made of browned bread filled with a macedoine of vegetables.

Manzo alla Certosina—Fillet of Beef. Select a tender rump steak or fillet of beef and put it in a stewing pan with two slices of fat bacon and three teaspoonfuls of the best olive oil. Season with salt and a suspicion of nutmeg. Cook without a cover and turn the meat from time to time. When nicely browned add an anchovy, mixed with some herbs, all very finely chopped, and a small clove of garlic with one incision across it. Cover the whole with good stock, put the cover on the pan and when tender skim the grease off the gravy, put the latter through a sieve and pour over the meat. Do not let the garlic remain in the pot more than five minutes.

Oily Complexion.

One whose complexion is naturally abnormally oily should not use grease in any form. It should even be eliminated from articles of diet, for if taken as food into the stomach it will be thrown off by the pores. If you are eating gravies, fat meats and pastries stop them.

For external applications you require astringents. Try camphor water lotion, made from one pint of camphor water, one-half ounce of glycerin and one-quarter of an ounce of powdered borax. This is to be used freely as a substitute for water. Let it dry on the skin. Should there be any appearance of roughness after using the lotion for several days it must be discontinued, for it is too drying to the surface. Applications can be resumed when the skin is smooth again.

Laundering Curtains.

Soak lace curtains over night in a tub of lukewarm water to which is added two tablespoons of ammonia and one-quarter cake of laundry soap shaved fine. Drain off the water, but do not lift out the curtains, as the water will make them heavy and liable to tear. Pour in another slightly warm water prepared in the same way. Move the lace about and squeeze it, then drain and put in a third suds. Drain and lift carefully into a rinsing water and then into a bluing water. Pass through a wringer, lay over a line until dry, then fasten into curtain frames to dry.

To launder muslin curtains wash them carefully, starch, and iron on the wrong side to make them look like new cloth.

To Prepare a Bird.

Be sure the bird is a tender one (squab or quail); boil it carefully or cook it whole in this manner: Put into a close covered vessel holding a little boiling water and place it over a very hot fire, steam it for a few minutes, then brown it in the oven, basting it frequently; serve a tomato, currant jelly or wine sauce around it. A simple sauce made of currant jelly melted with a little water is very nice.

Camphor in Face Creams.

A skin specialist skilled in the preparation of cosmetics has said that the tendency of grease to make a growth of down on the skin can be checked by mixing some spirits of camphor with the preparation. A few drops can be incorporated with the fat each time before using. Take out sufficient in a small saucer and beat the camphor through it.

Baked Bean Sandwiches.

Rub one cupful of cold baked beans through a sieve, season to taste, add a teaspoonful of finely chopped parsley, the same of chopped celery, and a little prepared mustard. Spread upon thin buttered slices of bread, and cut into any desired form.

Cocoanut Pie.

One pint milk, 1 cup sugar, 2 eggs, butter size of walnut, cup cocoanut, tablespoon cornstarch. Bake in deep plate like custard pie. Flavor added if preferred.

Fall of a Mountain.

Natural causes sometimes bring about sudden lowering of the heads of lofty mountains, but perhaps there is no record of the operations of man having achieved such a feat except in the case of the vast rock slide at Turtle mountain, in the province of Alberta, Canada, in 1903. The mining town of Frank was overwhelmed, and the height of the mountain was reduced as much as 1,000 feet. The fall resulted from the honeycombing by miners of a ten-foot seam of coal penetrating the base of the mountain.
