And I brought Lady B. through without a scratch," she added proudly, "of course I did have a few unusual experiences, but they did not cause me any alarm. One day when it was lousy and I couldn't see the sun I lost my way in a 300-acre pasture. Some persons living in the neighborhood warned me not to attempt to ride through it, but by so doing I lost the road and wandered about the reservation for several hours. But I just kept going and everything came out all right."

**OBITUARY.**

GEORGE AARON VINCENT TUCKER

Was born in Bridgehampton, Sanilac county, Nov. 1, 1857.

He lived on a farm with his parents, Mr. and Mrs. Erasmus A. Tucker, until the death of his father which occurred when he was 18 years old. At this time, being the oldest son, he assumed the responsibility of the farm trying to fill his father's place as best he could. About a year and a half ago he came to Birmingham and entered the employ of Mr. G. W. Slaughter, of Deep Run farm, where he remained until June 8, of this year, when he went to the Canadian northwest to seek his fortune.

About a month ago he was stricken with typhoid fever that developed into typhoid pneumonia, which caused his death after an illness of three weeks at Trochu, Alberta, Nov. 9, 1910.

The remains were shipped to this place for burial, and services were held Saturday, Nov. 19, at 1 p. m. from the home of his sister, Mrs. Thomas H. Walker, and conducted by Rev. C. A. Salter, Internat at Roseland cemetery.

Besides his many friends, he leaves to mourn his loss a widowed mother, Mrs. J. E. Ellinger, of Detroit; Mrs. C. C. Johnson, of Bakersfield, Cal.; Mrs. John M. King, of Clarkston; Mrs. Thomas H. Walker, of Birmingham; two brothers, Russell A. of Clarkston, and John H. of Birmingham.

Mr. Tucker's life, like his father's, was an exemplary one, thoroughly honest and honorable in all his dealings with mankind. While he was in this place he was a regular attendant at the Baptist church and admired by all who knew him for his sunny happy disposition.

Paris—Every year the Societe d'Acclimatation de France sends a large quantity of Python to the United States. There was some hesitation about tasting roast snake, but the president, Edmund Perry, ate first, and the others took courage. The verdict was that python is some what cool, neither very good nor very bad to eat, but a safe and misused much, after all.

My method of producing literature in the "spur of the moment" order, is an article in the and resembles a cat having a fit. A Outlook, that American woman cat hardly ever plans out a fit very American woman has been reared up to a fit it goes ahead and has it, some on a false conception. The fit has times it is a good fit, and sometimes been set upon a pedestal and work it turns out to be a mere fizzle, and it is a superior sort of writing.
