This Home-Made Cough Syrup Will Surprise You

Stops Even Whooping Cough Quickly. A Family Supply at Small Cost.

Here is a home-made remedy that takes hold of a cough instantly and will usually cure the most stubborn case in 24 hours. This recipe makes a pint—enough for a whole family. You couldn't buy as much or as good ready made cough syrup for $2.50.

Mix one pint of granulated sugar with ½ pint of warm water, and stir 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps end a cough.

You probably know the medical value of pine in treating asthma, bronchitis and other throat troubles, sore lungs, etc. There is nothing better. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this formula.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., 264 Main St., Ft. Wayne, Ind.

Would Avoid Him.

Slopay—Here comes a man I don't care to meet. Let's cross over.

DeLong—Why don't you care to meet him?

Slopay—He has a mania for collecting bills.

In case of pain on the lungs Hamlins Wizard Oil acts like a mustard plaster, except that it is more effective and is so much nicer and cleaner to use.

How He Lost Out.

DeShort—Don't you—er—think you could learn to love me, Miss Oldgold?

Miss Oldgold—Well, I don't know.

DeShort—Of course you can. One is never too old to learn, you know.

Miss Oldgold—Sir!

Important to Mothers

The Kind You Have Always Bought.

Doling Out Knowledge.

Mrs. Chugwater—Josiah, what is the origin of the name of Milwaukee and what does it mean?

Mr. Chugwater—It comes from the Latin word mille, meaning a thousand, and Wau Kee, a Chinaman; Milwaukee, a thousand Chinamen. Think you can remember that?

SKIN BEAUTY PROMOTED

In the treatment of affections of the skin and scalp which torture, disfigure, itch, burn, scale and destroy the hair, as well as for preserving, purifying and beautifying the complexion, fallible. Millions of women throughout the world rely on these pure, sweet and gentle emollients for all purposes of the toilet, bath and nursery, and for the sanative, antiseptic cleansing of ulcerated, inflamed mucous surfaces. Potter Drug & Chem. Corp, Boston, Mass.) cole Proprietors of the Cuticura Remedies, will mail free, on request, their latest 32-page Cuticura Book on the skin and hair.

POLICY

Calvin—The doctor forbids me to drink champagne.

Ruth—Forbids you to drink champagne?

Calvin—Well, until after his bill is paid.

Without Malice.

"What have you done?" exclaimed Mrs. Cumrox, as she flourished a letter at him.

"Has that anything to do with the correspondence I tried to help you with?"

"It has. It's an indignant protest. I told you to address that distinguished pianist as 'Herr Professor.'"

"And I did so."

"Yes. But you wrote it 'Hair Professor!'"

WONDERED WHY.
Found the Answer Was "Coffee."

Many pale, sickly persons wonder for years why they have to suffer so, and eventually discover that the drug—caffeine—in coffee is the main cause of the trouble.

"I was always very fond of coffee and drank it every day. I never had much flesh and often wondered why I was always so pale, thin and weak.

"About five years ago my health completely broke down and I was confined to my bed. My stomach was in such condition that I could hardly take sufficient nourishment to sustain life.

"During this time I was drinking coffee, didn't think I could do without it.

"After awhile I came to the conclusion that coffee was hurting me, and decided to give it up and try Postum. I didn't like the taste of it at first, but when it was made right—boiled until dark and rich—I soon became fond of it.

"In one week I began to feel better. I could eat more and sleep better. My sick headaches were less frequent; and within five months I looked and felt like a new being, headache spells entirely gone.

"My health continued to improve and today I am well and strong, weigh 148 pounds. I attribute my present health to the life-giving qualities of Postum."

Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

ANIMALS STARVING ON GRAND ISLAND

ABOUT 1,000 DEER ON TRACT OF LAND OWNED BY ANCHON COMPANY IN WANT OF FOOD.

WORD SENT STATE WARDEN

If Permission Is Secured From the State Department, Many of Them Will Be Transferred to Private Preserves.

Lansing.—On Grand Island, a tract of land owned by the Cleveland Cliffs Iron company out in Lake Superior, a few miles off the shore of Alger county, there are about 1,000 deer, the property of the capitalists who own the island, and owing to the scarcity of feed the animals are slowly starving to death.

At least such is the information that has reached the office of State Game Warden Pierce from C. V. R. Townsend, the general manager of the company, and he would like to know what disposition can be made of some of the animals. Recently he shipped several carloads of alfalfa to the island, as it is said that the deer are very fond of this food, but he estimated that it will require thousands of bales of alfalfa to feed the deer until the snow melts in the spring.

If permission is secured from the state game warden's department a number of the deer will be transferred to private preserves, and it is likely that Game Warden Pierce will grant this request. Mr. Pierce agrees with Mr. Townsend of the Cleveland Cliffs company that it would be a good scheme to secure the enactment of a law that would allow owners of game preserves to raise deer for slaughter, governing their sale in the same manner as the system under which brook trout raised in private hatcheries are sold.

This island is a beauty spot and a natural game preserve. When the Cleveland Cliffs company purchased it several years ago, a number of deer were placed on it, but they have multiplied so rapidly that hunters were allowed there this year in the hope that a few of the animals would be exterminated.

Double Crossed by State Fair.

From the advance information furnished by B. A. Holden of Wixom, president of the Michigan State Association of Farmers' clubs, which began a two days' session in the senate chamber of the capitol, some red-hot resolutions were introduced.

At the last meeting of the association, held in this city a year ago, A. J. Lougherty of Detroit, one of the members of the Michigan State Fair association, promised the farmers that no liquor would be sold on the fair grounds last summer, but inasmuch as liquor was sold in the usual manner last fall, the members of the association declare that Dougherty or some members of the state fair association handed them the double cross, and it is said that they will take cognizance of this before the meeting is brought to a close.

It is said that a majority of the delegates are in favor of state-wide prohibition and there is a possibility that an attempt will be made to have a resolution passed, calling for this measure. At the meeting a year ago some one suggested such a resolution, but it was not presented.

President Holden is authority for the statement that a resolution will be presented declaring for a sweeping reform in the present method of employing state help. Many of the delegates are of the opinion that politics is more powerful than efficiency when it comes to selecting the clerks to transact the state's business, and a resolution declaring for civil service is expected to pass without a dissenting vote.

Not Much Danger of Typhoid.

State Analyst Robison of the dairy and food department visited the fruit store to ascertain if there was danger of a typhoid contagion through the sale of fruit, from the two cases in the family of Ralph Tore, living up stairs.

Mr. Robison stated that in his opinion the typhoid cases were isolated sufficiently so that the danger of spreading the disease by the fruit was very remote. Nevertheless, Sanitary Inspector Carpenter and Mr. Robison left directions for renovating the place and will keep tab on the proprietor to see that he observes the directions.

Conditions in the family of Ralph Tore remain unchanged. The children are being cared for by the parents and the physician in charge is endeavoring to secure the best attention possible under the circumstances.

M. N. G. Officers Banquet Warner.

Officers of the Michigan National Guard gave Governor Warner a banquet here. Gen. James H. Kidd, in behalf of the guard officers, presented the governor with a handsome silver service.

Among those present were: Gen. W. F. McGurrin, Grand Rapids; Col. J. N. Cox, Houghton; Maj. W. G. Hardy, Grand Rapids; Gen. J. H. Kidd, Ionia; Col. W. G. Rogers, Detroit; Gen. C. A. Wagner, Port Huron; Col. A. L. Holmes, Detroit; Col. T. C. Morgan, Battle Creek.

New Corporations.

The following companies have filed articles of incorporation with the secretary of state: Pontiac Drug Manufacturing company, Detroit; $10,000; principal stockholders, Fred L. Carter, Hammond H. Loving; Bonafide Manufacturing company, Plymouth; $2,000; Russel Motor Axle company, Detroit; increase from $100,000 to $150,000; principal stockholders, W. Russell, George B. Russell; Detroit & Windsor Ferry company, Detroit; $5,000;

Condensed Milk for Ice Cream.

"The use of condensed milk is a recent innovation in ice cream manufacture," said President J. F. Kelley of Grand Rapids in his address before the Michigan Association of Ice Cream Manufacturers. "There is nothing more sanitary than the manufacture of condensed milk, and now about 75 per cent of the ice cream in the United States is largely composed of condensed milk. Condensed milk makes a dryer cream, which does not become coarse grained. The use of condensed milk is not to cheapen the manufacture, but rather to improve the grade of the product."

In order that they may have the same advantages given in other states, a committee composed of William Parks of Benton Harbor, J. J. McDonald of Owosso and Harry Geer of Cadillac was appointed for the purpose of meeting the railroad commission February 15 to request that the express rate on ice cream be lowered.

The subject of homogenized raw material was discussed at some length. The idea is a new one in this country and is simply a method of laying in a supply of butter fat when it is cheap, for use during the months when sweet cream and butter are harder to secure. The method is to churn the cream and make what is known as "sweet" butter—that is, butter without salt—and when the butter fat is needed this is very finely divided and mixed with sweet milk, making a composition very much like the original cream, but which cannot be gathered into butter again.

The next convention will be held in Detroit next December. Officers were elected as follows: President, W. T. Parks, Benton Harbor; vice-president, H. R. Pierce, Grand Rapids; secretary-treasurer, Harry Geer, Cadillac.

State Fair Men Look to Detroit.

Secretary J. E. Hannan of the Michigan State Fair association says that the attendants at the recent Chicago meeting of the American Associated Fair associations were much impressed with the manner in which the Michigan fair handled its transportation facilities last year, and also were much interested in the "coin" system which superseded the old ticket system.

"The American Associated Fair association is made up of representatives of 33 state boards," said Mr. Hannan. "We get together every year to exchange ideas and get pointers. Last year State Railway Commissioner George W. Dickinson handled our transportation problem, and we hope and expect that he will do it again. The secretaries of the New York and Indiana fairs were so pleased with the way we received and shipped out goods that they have promised to send on their live stock exhibits again next year.

"I think several of the state fair managements will take up the matter of getting a railway commissioner to handle their transportation problems. An official can do it much easier and better than a private citizen.

"We are fortunate in the date we have selected for our next fair, fortunate in more ways than one. We will begin September 18 and continue ten days or two weeks. During the week of September 11, the Kansas, Indiana, New York, Wisconsin, Kentucky and London, Ont., fairs will be under way. The exhibitors at these places will be at liberty when we begin operations, and we will have for opposition only the Hutchinson (Kan.) fair and the Sioux City stock show."

The new board of the Michigan State Fair association will meet January 10 and at that time will make definite plans for next fall.

Accepted 280 Miles of Road.

The state highway department has completed its work of road inspection for 1910. About 280 miles of roads, ready for the official O. K. of one of the highway officials, will not be inspected until spring on account of the snow. This season the department has accepted 280 miles of state award road.

"The work was continued until conditions made it impossible for us to proceed any farther," said Commissioner Ely. "The last road inspection was a mile in Ionia county which I accepted the other day. I had made several previous trips over the highway.

One of the first important acts of the department next spring will be a trip to the Cape Cod district of Massachusetts by Commissioners Ely and Rogers to inspect the famous sand roads, the discussion of which caused so much comment at the recent convention of the National Road Builders' association at Indianapolis. The state officials are certain that the discovery will be a great boon for Michigan, if it is all that reputable experts claim it to be. If it is possible to make durable sand roads by a mixture of asphaltic oil the department will spend considerable time next season in the sandy districts of western Michigan, making experiments and booming the latest discovery.

State Boys' Conference Soon.

The dates for the State Boys' conference of the Y. M. C. A., which is to be held in Charlotte, are December 30-31-January 1. The convention will be held in the M. E. church auditorium and fully 200 boys are expected to be present, representing nearly every city in the state where the Y. M. C. A. is located. A committee of 12 Charlotte boys under the chairmanship of Earl Doyle, will have charge of the entertainment part of the convention.

Writes Book on Michigan Rocks.

Fifty pounds of manuscript filling a big suit case, manuscript which will be of more interest to geologists and mining men of Michigan than anything ever written, was received by State Geologist Allen from A. C. Lane, head of the geological department of Tufts college in Massachusetts and Mr. Allen's predecessor. The manuscript is a comprehensive history of copper-bearing rocks in Michigan and will be published in two volumes.

My Word Is As Good As My Bond

and when I say that I will sell you Ten Acres of the Best Land in the Panhandle of Florida at $7.50 cash an acre and accept the balance of the purchase price in sugar cane, I mean every word of it.

JOHN. E. STILLMAN

MY OFFER Growers of sugar cane in the Florida Panhandle, average $100.00 an acre from their crop and it is the easiest, safest, surest crop that grows. I have 27,000 acres of selected, rich cane land, also suited to trucking and fruit growing, in Escambia County, Florida, north of the city of Pensacola. Ten acres will net you $1,000.00 a year in sugar cane alone. I will sell you ten acres for $30.00 an acre, $7.50 an acre cash and the balance in two, three and four years. **Payable in sugar cane or cash.**

MY RECORD I have been dealing in Florida lands for the past 24 years, and in order to convince you of my absolute responsibility, I want to tell you—that I am Ex-President of the Pensacola Chamber of Commerce, have been Collector of Customs for the port of Pensacola for the past thirteen years, and that I am President of The Pensacola Inter-State Fair Association.

I am President of the Pensacola Investment Co., capitalized at	$300,000
I am Vice-President of the Pensacola Hotel Co., capitalized at	150,000
I am President of the East Pensacola City Co., capitalized at	250,000
I am President of the Maxent Land Company, capitalized at	300,000
I am President of the Suburban Railway Co., capitalized at	30,000
Total Capitalization of Companies ..	**$1,030,000**

Write to me today or simply sign and mail me the coupon. I will answer all your questions personally. The Florida Panhandle has the right kind of land—what she needs is the right kind of people. Address

JOHN E. STILLMAN, Pensacola, Fla.

JOHN E. STILLMAN, Pensacola, Flá.
Please mail me booklet and full information in regard to the farms that you are selling in Escambia, County.

Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

solves the difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in Japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an **automatic-locking flame spreader**, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font.

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for rewicking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.
