We Want to Build a Smelter

The Montana Nickel & Copper Co. owns 12 mining claims at Nye, Sweetgrass County, Montana. It has enough ore in sight to supply a 100-ton plant more than a year.

It has one vein of nickel ore, 30 feet wide, that will average 5 per cent nickel, 3 per cent copper and \$4.00 in gold. The total value of this ore is \$57,000 per ton.

There are only two other nickel mines in the United States, and we imported \$2,500,000 worth of nickel last year. Nickel is worth 50c per pound.

The first 20 men who bought stock in this company live within 30 miles of the property. The company is indorsed by banks and business men where the property is located.

We are offering a few shares of stock at 25c per share to build a 100-ton smelter.

Would you consider and investigate a proposition that will pay more than 20 per cent, and may pay safely 50 to 100 per cent? If so, write for prospectus without delay.

The ruin of the Telephone Business is Something Wonderful—and it Still Grows

The latest addition to the Birmingham Telephone Exchange is the Big Hever Telephone Co's line of 14 new subscribers added to Birmingham Exchange last week. The total number of subscribers for this growing exchange now is fast reaching towards 500.

Under Mr. J. M. Kelly's management the business grows almost magically. At first his troubles were many and much owing to the narrowness of everything. A new building, new switchboard, new operators, new surroundings and new people all tended to make the general Mr. Kelly ponder and think. All these troubles are passing fast and many of them are left behind. New operators had to be employed, had to learn the business and their patrons. Everything is now running smoothly and new subscribers are being added daily.

He is pleased to submit to our readers and all our telephone users the following list of subscribers whose names have been added since the new directory was published.

Changed Wrong Man.

Lesouche, the principal figure in the famous judicial tragedy of the Lyons mail, which has been staged the world over, left a number of relatives at the time of his execution. When his innocence was subsequently established, Napoleon III, in 1865, granted a pension in perpetuity to the man's next of kin. The pension was paid by the French government until quite recently. A few days ago a time, however, who described herself as the direct descendant of Lesouche on the female side, wrote to the minister of justice in Paris, insisting upon her right to the pension. The lady, who is 50 years old, is prepared to produce the necessary proofs in order to establish her identity.

CHASE S. OSBORN THE MAN.

Something About the Candidate For Governor.

Chase S. Osborn is a man of wonderful activities, or a versatility amazing even to his closest friends. He has been an untiring student for years. In a library in his home at South St. Marie, which is within an hour's ride to the state, and his long travels in foreign lands have given him a wealth of information on every conceivable subject.

One night some months ago Mr. Osborn was the guest of a small dinner party in Detroit. At the table were gathered a steamboat operator, all of whose life had been spent on the water, a lawyer, whose hobby it was to study the history of the ancient Greek history, an actor who was formerly a newspaper reporter, a man strong in the labor union movement and a business man who is an ardent fisherman.

When the coffee and cigars were reached the talk about the table began to range around the subject of the mechanical side of the development of the great lake freight with the captain, argued a point in the history and compared Athens of today with the Athens of long ago with the lawyer, excepting the titles of newspaper editor and the former reporter took up phases of the labor movement with the union man and commented upon fishing on the north shore with fishing in this state with the business man.

It was a wonderful revelation to the men at the table and impressed on them vividly the experience of all walks and conditions of life which Mr. Osborn will bring to the executive office in Michigan. And yet this general discussion represented but a small fraction of the knowledge possessed by Mr. Osborn. His book on South America, "Andean Land," has already been translated into the great country to the south of ours and is a standard in the libraries throughout the country. It was his knowledge of the mountains that led to his discovery of the Moose Mountain iron range in Canada, the richest iron discovery in many years.

Chase Salmon Osborn was born in Huntington county, Ind., on Jan. 22, 1860. Both his father and mother were physicians, and it was their wish that he should embrace the profession. Mr. Osborn was educated in the public schools of Lafayette, Ind., and Purdue university. He took up the study of medicine, but soon dropped it as un congenial and on leaving college became a newspaper man, starting as a reporter on the Lafayette Tribune. He soon sought the larger field of Chicago and from there went to Milwaukee, where he was identified with several of the papers. He was married in 1883 to Miss Lillian G. Jones and two years later went into the wilds of northern Wisconsin to become editor of the Florence Mining Journal. Florence was a "bad" town in those days and was a campaign for reform which Mr. Osborn carried on his life was severely treated. In 1887 he took possession of the Sault Ste. Marie News and conducted it for a number of years, finally disposing of the paper to W. Frank Kears, the present publisher. Mr. Osborn retains his interest in the newspaper field by acting as president of the Courier-Herald company in Chicago.

Throughout his life Mr. Osborn has taken a great interest in politics. He was postmaster at the Sault from 1889 to 1893, but declined a delegate to countless conventions of the Republican party. He was one of the original Progress men in the state, using the influence of his position in behalf of the famous governor who Mayor Plagsee became a candidate for governor, and under Governor Plagsee served both as game warden and as state railroad commissioner.

His record in these two offices gives an indication of the character of the man. As game warden he reorganized the department, enforced the laws without fear or favor, and the record at Lansing shows that he made more prosecutions for less money than any man who has ever held the office.

As railroad commissioner he secured the first two cent fares in the state and fought for many reforms in railroad service, notably the abolition of the "pullman" system. Mr. Osborn is now a recent of the University of Michigan and gives much of his time to the affairs of this institution. He was a candidate for governor two years ago in the famous "battle of the barrels" between two other candidates.

He was one of the most persistent of the insistent cry for reform which finally led to the passage of a state primary law.

As to what Mr. Osborn stands for in the present campaign in which he seeks the Republican nomination for governor there can be no mistake. He wishes to see the domination of the ruling of the masses by special interests. He is for a cleaning out in the state house and a united Republican party working for the best interests of the state.

"Osborn, Harmony and a New Deal," was early adopted by his friends as a slogan, and the recognition which his candidacy has been accorded by the people of the state indicates that Michigan is tired of the old order of things and is leaning to Chase S. Osborn as a big step toward a new regime.

Special Prices on Rugs

Next Saturday I will offer 9x12 genuine Superior and Khorsassa Axminster and Mohair Velvet Rugs for only \$18.95

These Rugs usually sell at \$25.00 to \$30.00. I was fortunate in purchasing these Rugs at a low price, and I also know of no better way to call attention to my stock of Rugs, Furniture, etc., than by offering values that will cause well-posted buyers to set up and take notice, hence this below usual wholesale cost price.

It is my policy to offer not so much CHEAP goods at bargain prices, as GOOD goods at bargain prices. While the Genuine Oak Dresser I offer at \$7.95 you might purchase elsewhere at \$10.00, yet the quality I offer at only \$15, you will find would cost \$22.00 or more at other stores. For instance, a lady said she paid \$32.00 in the city for the same brass bed I offer at \$25.65. A gentleman was in who said he was posted in Furniture, and while he stood admiring my \$25 Combination Bookcase (which one lady said was the handsomest she ever saw), said it would sell anywhere for \$40.00.

So you see it is on the GOOD THINGS that I offer the best values, the same as with these Rugs. At \$18.95 I am offering you the very best quality 9x12 Velvet and Axminster Rugs. I also offer a 6x12 Brussels Rug at

\$7.95
A very handsome 9x12 Velvet Rug at \$11.95

\$35.00 Genuine Body Brussels Rugs \$23.95 at only

Amongst the 50 patterns of Rugs I carry in stock I think I can suit your taste. I will reserve any Rug on a small payment down.

Good Heavy Linoleum 39c a yard
Hood Heavy 1x25 Lace Curtains, 3 yards long, 45 inches wide, per pair, \$3.95

I think my stock of Furniture will be nearly all in place by Saturday, and as you will find it all priced below all sale prices of other dealers it will pay you to come to my store. Get off the car at Royal Oak High School.
