THE FAIR AUTO!

Big State Fair Automobile Show Will Precede Big National Shows, First in the Field.

Detroit automobile dealers are enthusiastic over the change they will have of being the first dealers in the country to present their 1911 models in a mammoth show which will be held during the Michigan State Fair held next week, Sept. 19-24.

In many ways, size, completeness of displays and number of models shown this State Fair auto show will be on a par with the big national exhibitions in Chicago and New York and will take place several months before the other big shows. This feature appeals to the Detroit dealers and car owners and is being made by them to co-operate with the fair management in making this show one that will command attention throughout the country.

Work on the new automobile building where this show will be held is all finished. Manager Walter R. Wilcox, of Minneapolis, has called a meeting of Detroit dealers and spaces drawn and located. The planning of the exhibits has been made and everything is in readiness for the opening of the big auto show on Monday next.

This new addition of the auto show in a new building designed particularly for such an exhibit will prove a very decided attraction.

The Lash of a Fiend
Would have been about as welcome to A. Cooper, of Oswego, New York, as a mercurial long-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing I could do but use Dr. King's New Discovery, which cured me completely. I never coughed at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, in gripe, asthma, hemorrhages, whooping cough, or hay fever. It relieves quickly and never fails to satisfy. A trial convinces. See B. Trial bottle free. It's positively guaranteed by C. J. Shain and Cobb-Stanley-Harris Company.

First they have sold off the woods part, once known as the Electric Park. Prices considering location are very low. Lots will be sold for from \$250 to \$500 on easy terms. 5 Strong Reasons for Fall Painting

1. The wood is thoroughly dry. *Summer's sun has removed all moisture.*
2. Paint penetrates deeper into dry wood. *The drier it goes the better it holds.*
3. Fall weather is warm, dry and dependable. *Little danger of cold, damp, rainy days, which endanger the durability of the paint.*
4. Wet weather decays and destroys unprotected surfaces. *Lack of paint means unsightly and less valuable property.*
5. Fall painting keeps out winter moisture. *The greatest enemy to the life and beauty of all structures.*
