Why should you use it?
Because it is made by your home mill. Made from selected hard, red wheat, by an expert miller, with the latest improved machinery; and every sack is warranted to make as much and as good goods as can be made from any. Flour made in the United States.

And more important to you is because you can buy it for less money than any high-grade Flour more one sale in your town.

Try a sack, and if you are not fully satisfied with results you can return the balance to seller, and your money will be cheerfully refunded.
