

With Nero in your Coffee Pot

You'll be surprised at yourself as a coffee maker. The reason some never serve good coffee is that they do not buy the right kind. You cannot make a good cup of coffee unless you have pure fresh coffee to begin with. Nero coffee is high-grade coffee. It is made by blending good plump coffee berries grown under the most favorable conditions. Expert skill in the blending and roasting gives it its rich, happy flavor.

Nero Is 28c

If a friend should serve it in her home, you'd pronounce it great. Few expect to secure so delicious a coffee for less than 35c, while Nero Coffee is but, per lb., 28c.

But Nero is only one of our splendid Royal Valley Coffees. We've three other blends of renown. Margold Coffee has been a wonderful seller for years. It has a host of friends who will have nothing else but Margold at 30c.

Surgeon Edwin Atlantic. The American sturgeon is a distinct species and is captured on Lakes Michigan and Erie, where it is landlocked, but below the falls of Niagara the same species occurs and passes to the sea. It is recorded, with every probability of truth, that a specimen of this species was captured some years ago in the Fifth of May, having crossed the Atlantic.

Remarkable Gifts. The late Melville de Lancy Landon—"Zili Perkins"—kept in his library at Yonkers a scrap-book of typographical errors. Perhaps the most striking of these errors was a sentence from the society column of a fashionable New York paper: "The fair and blushing bridesmaids were very handsome breeches, the gift of the bridegroom."

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.
