I eat good, sleep good, and feel like a new man, although I am almost 68 years old. I have been a soldier in the late war of the rebellion, and was badly wounded." CHARLES HOLMES, Private Co. Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation is got out of the tube and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of 10 are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give \$100 for any case of deafness (caused by catarrh) that cannot be cured. Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY, Teleco, Ohio.

Sold by druggists, 75c.
