"The Liver Pills act So Naturally and Easily."

Such a statement, coming from the cashier of a bank, shows what confidence responsible people have in these pills. Mr. A. L. Wilson after trying them wrote:
"I have used the Miles Nerve and Liver Pills and also your Anti-Pain Pills, on myself, with good results, and your Pills act so naturally and so easily that I scarcely know that I have taken a pill. Frequently being troubled with headaches I take an Anti-Pain Pill and get immediate relief in every case. A. L. Wilson, Sparta, Ill.
Mr. Wilson was for a number of years cashier of the First National Bank of Sparta."

Dr. Miles' Nerve and Liver Pills

are different from others. Many kinds of liver pills are "impossible" after one trial on account of their harshness. Dr. Miles' Nerve and Liver Pills do not act by sheer force but in an easy, natural way, without gripping or undue irritation. They are not habit forming.

If the first bottle fails to benefit, your druggist will return the price. Ask him. **MILES MEDICAL CO., Elkhart, Ind.**

Why Farmers Should Keep a Bank Account

Their Bank deposit book affords them a complete record of their cash receipts, while the stubs of their check books are a perfect record of expenses and payments. Paying a laborer a week account, or any other bill with a bank check is much safer than with money, because you avoid the risk of handling the actual cash, and the interest charged by the Bank is the best kind of a receipt.
Farmers, try the experiment for one year of keeping a bank account and see if it does not pay you. A large number of the best farmers have accounts with us.
