It is a pleasure to watch the toast become crisp and brown, and then remove it from the G. E. Radiant Toaster at the precise moment it is done. The General Electric Radiant Toaster produces crisp, delicious toast, on the dining room table. It makes toast by radiant heat—the correct way. The center of the bread becomes heated before the outside is browned, so that allowing the necessary chemical changes to take place, without which toast is soggy in the middle and hard on the outside.
