

DEATH RECORD

Prof. Munyon Says Ignorance of Laws of Health Explains Early End of Life.

NOTED SCIENTIST HAS ENCOURAGING WORD FOR DESPONDENT MEN AND WOMEN

"Death before 30 years of age has been reached in nothing more than a few minutes of a man's life than that of an older age is simply ignorant of the laws of health."

Such was the original and rather startling statement of the noted health scientist, James M. Munyon, the famous Philadelphia health reformer, in his address at the health headquarters in all the large cities of the world, during his recent tour in direct touch with all prominent health reformers.

Professor Munyon is a living embodiment of the chemical truths of the science of health, well polished, active and energetic. He has the reputation of being the man who has taken the century age limit which he declares is the result of ignorance of the laws of health, and has shown to the world that it is not a matter of fate, but of choice. There is no limit to the life of a man, and the only way to reach the age of three hundred is to follow the laws of health which he has discovered.

"I want the people of the world to know that the only way to reach the age of three hundred is to follow the laws of health which he has discovered. There is no limit to the life of a man, and the only way to reach the age of three hundred is to follow the laws of health which he has discovered."

UNFORTUNATE.

Beas-Poor Jack! He ever could and it ruined him.

Minnie-How?

Beas-He wrote a verse to a heifer and he was in love with, and he wrote "honey" for "bonny!"

Mrs. Browning.

Appropos of the jubilee of the death of Mrs. Browning, it is generally known that the event occasioned one of the tenderest times her husband ever wrote. He tended her alone the night before she died, and wrote her passing in a letter of infinite pathos addressed to their mutual friend, Mrs. Blanton: "Thou art the only heart will keep till I see thee again, and longer—the most perfect expression of my love to me within my knowledge of her. I will remember thee with a face like a girl's; and in a few minutes she died in my arms; her head on my chest, and I saw her no more."

A LADY LECTURER Feeds Nerves and Brains Scientifically.

A lady lecturer writes from Philadelphia concerning the use of right food and how she is enabled to withstand the strain and wear and tear of her arduous occupation. She says:

"Through improper food, I unconsciously digested, my health was completely wrecked, and I attribute my recovery entirely to the regular use of Grape-Nuts food. It has, I assure you, proven an inestimable boon to me."

"Almost immediately after beginning the use of Grape-Nuts food, I found a gratifying change in my condition, the terrible weakness that formerly prostrated me after a few hours of work, was perceptibly lessened, and I now have only a memory—it never returns."

"Ten days after beginning on Grape-Nuts I experienced a wonderful increase in mental vigor and physical energy, and continued use has entirely freed me from the miserable insomnia and nervousness from which I used to suffer so much."

"I find Grape-Nuts very palatable and would not be without the crisp, delicious food for even a day on any consideration." Indeed, I always carry it with me on my lecture tours.

Read the little book, "The Road to Well-being," in plain English. It is a book that will save you a great deal of trouble. It is a book that will save you a great deal of trouble. It is a book that will save you a great deal of trouble.

THE OLD ACTORS' HOME

The winter of 1882 the theatrical managers of New York and Brooklyn decided that, in order to relieve the many cases of distress reported throughout the theatrical profession, it was necessary to create a permanent fund which would be immediately available for the purpose. This fund was to be known as the "Actors' Fund," but as it was to be raised by the efforts of all classes connected with the business of public amusement, it was devoted, with out reservation, to any and all persons who have been connected with said amusements, in any capacity whatsoever.

Benefit performances were given at the principal theaters in New York and Brooklyn on a certain day for the purpose of creating a foundation for the fund. The receipts from the sale of tickets and donations for these performances were \$59,335.80. Among the largest donations were: James Gordon Bennett, \$10,000; John Jacob Astor, \$2,000; Edwin Booth, \$1,000.

The fund was incorporated according to the laws of the state, June 8, 1882, and on July 15th a permanent organization was effected with the following officers: President, Lester Wallace; vice-president, A. M. Palmer; secretary, Daniel Frohman; treasurer, Theodore Moss. The board of trustees was: Lester Wallace, Edwin Booth, Joseph Jefferson, M. H. Mallory, Lawrence Barrett, H. C. Miner, W. E. Sinn, A. M. Palmer, Edward Harrigan, William Henderson, John F. Poole, P. T. Barnum, W. J. Florence, William Birch, J. K. Emmett and J. H. Haverly. The counsel for the fund was A. J. Dittenberfer.

T. Barnum, W. J. Florence, William Birch, J. K. Emmett and J. H. Haverly. The counsel for the fund was A. J. Dittenberfer.

The report of the secretary for the first year of the fund's existence showed a disbursement of \$12,349.07. Relief had been given to over four hundred actors in different parts of the Union, and thirty-two had been buried in California, Texas and other parts of the country. Thus the fund had prevented the sick and needy from seeking charity, and had given respectable internment to those who would otherwise have been buried in pauper's graves.

One day in the spring of 1906 Louis Aldrich, an actor, and Al. Hayman, a theatrical manager, checked for the time being, at the Empire Theater, New York.

"The actors' fund has at last passed resolutions approving my plan to build a home for old actors," said Aldrich. "You know that I have been agitating this scheme for years, with little or no encouragement; nobody believes it feasible, and I am not sure that I can make it. I am always here, that I can make it. I am always here, that I can make it. I am always here, that I can make it."

Morgan's Lost Opportunity

J. P. Morgan was almost bred to be a mathematician. While at Gettysburg, Morgan specialized in mathematics, and was the professor of the subject. He would spend long hours at problems. About ten years ago a number of New Yorkers who had been at the Gettysburg addition and subtraction ceremonies. The address of the day was made by Joseph Jefferson.

In reality, the dramatic profession owes to Louis Aldrich more than it could ever owe to any other person for the possession of this beautiful home. He talked of the scheme for years. No one else

STATE NEWS IN BRIEF

Grand Rapids.—South Haven was awarded the next meeting of the Pythian grand lodge. The meeting will be held on the first Wednesday in September, 1912.

The grand officers will be installed with much ceremony by P. T. Colgrove of Hastings, past supreme chancellor of the grand lodge, and Victor Hawkins, past with the new officers of the grand lodge to formulate plans for the coming year's work.

Kalamazoo.—Delos Turner has again been foiled in his attempt to capture a bride. Sprung down by a way the marriage was postponed. The woman, Nettie B. Smith, returned to Missouri, but, according to Turner, she is willing to come back to Kalamazoo if he can find some person willing to perform the marriage.

Port Huron.—A large number of Maccabees are expected in this city next week, and great preparations are being made for the entertainment of the guests. The association of the Knights of the Modern Maccabees is to be held. At this meeting adjustments of the rates and the assessments for the erection of a monument to the late Major Boynton, father of the Maccabees, will be considered.

Ann Arbor.—Daniel Alford has cheated the law and lies dead, having committed suicide in the county jail just before being taken to the courthouse where Judge Kinne would have sentenced him to 20 years in the penitentiary for a certain offense, the breath left the 29-year-old body at about the same minute he would have received his sentence.

THE HAPPY MAN.

Houghton.—Fire in the Hotel Knaut damaged the structure to the extent of about \$15,000. Several guests and narrow escapes were made. The hotel was built in 1862. It will be rebuilt.

Saginaw.—James Gregory, seventy years old, employed at the Prairie farm, was found dead near the Grand Rapids and Cassin road, five miles south of here, by some children. A pay envelope in the man's pocket identified him. Apparently he had been walking along the track and was struck by a Grand Trunk train.

Saginaw.—E. A. McWilliams of Clare, in company with Flosie Draper, thirteen years old, were arrested for the theft of a cow from Sheriff Roberts, where it is charged that McWilliams used a charge of abduction. The officers allege that McWilliams enticed the child from her home and brought her to Saginaw.

Cadillac.—Francis Preadahl, twenty years old, was arrested for attempting to pass a forged check for \$50, using the name of his father, R. P. Preadahl, a prominent farmer of Liberty, Michigan. The county sheriff Preadahl confessed to the forgery but made no further explanation. The bank will prosecute.

Kalamazoo.—A wealthy member of Kalamazoo society, but now feeble and broken in health, has been offered for sale. Eighty years old, applied to Sheriff A. L. Campbell for restitution of her wrongs, alleging that a married daughter had taken a large portion of her remaining to her from the wreck of her once extensive holdings. The sheriff provided her with means of support, and she will stay up her case with County Poor Commissioner Bryant.

Holland.—Dr. Mayor and Mrs. Edward Jerome Harrison are the oldest and most prominent pioneer couples of the Van Raalte colony, which settled here sixty-four years ago, celebrated the fifty-eighth anniversary of their marriage with a family reunion at their home here last night. Mrs. Harrison, now fifty years, Mr. and Mrs. Harrison are both seventy-nine years of age and their birthday anniversaries are only a few days apart.

Flint.—Dr. F. L. Tupper, physician for the Bulck Motor company and a member of the park board, was arrested in Detroit on a charge of poisoning a dog owned by Henry Allen, a well-to-do gold prospector and miner. The defendant says that the dog was poisoned and was entered. His personal bond of \$100 was accepted as bail.

Bay City.—That Attorney Robert V. Ingersoll of this city, who is also secretary-manager of the General Electric Co., died from a stroke of the heart. He was 62 years of age. His younger brother Gerald were drowned in Saginaw bay, is now accepted. No boats touching at any shore points were picking them up and away, the position of their stranded yacht, found on a bar nine miles north of the city, indicates that they were blown there by a strong north wind. The Saginaw river when both were either washed off or tipped out of their boats.

Howell.—C. A. Beebe, well-known contractor and operator of the Howell cement works, died from a stroke of the heart. He was 62 years of age. His younger brother Gerald were drowned in Saginaw bay, is now accepted. No boats touching at any shore points were picking them up and away, the position of their stranded yacht, found on a bar nine miles north of the city, indicates that they were blown there by a strong north wind. The Saginaw river when both were either washed off or tipped out of their boats.

Thompson's Eye Water

"Who's getting married." "That's the happy man." "Her father."

"WHY SHOULD I USE CUTICURA SOAP?"

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin troubles." True, it is only for skin troubles, but its great mission is to prevent skin troubles. For more than a generation its delicate emollient and prophylactic properties have made it the standard for this purpose, while its extreme purity and refreshing fragrance give it all the advantages of the best of toilet soaps. It is also invaluable in keeping the hands soft and white, the hair lustrous and glossy, and the scalp free from dandruff and irritation.

While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears out its rivals, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. 23 L, Boston, for a liberal sample cake, together with a thirty-two page book on the skin and hair.

Whoever complains of not having found a true friend among himself—Sint.

Who's the loveliest? The loveliest of children, feeding, softens the gum, reduces inflammation, always pain, cures wind, colic, etc. in babies.

Who knows most greives for wasted time—Dante.

Howell's Cement

Howell's Cement is the best quality of Portland Cement possible to manufacture. Forty million sacks are made and consumed yearly in this country. The railroads use hundreds of thousands of barrels. It is used by the biggest architects and contractors in the cities and the government uses it extensively in all departments. If you have any concrete work, ask your dealer for a sample. It is the best for concrete work of any kind.

UNIVERSAL PORTLAND CEMENT CO. CHICAGO-FITTSBURGH ANNUAL OUTPUT 10,000,000 BARRELS

Cement Talk No. 5

The term "barrels" is usually used in speaking of quantities of cement. However, cement is seldom actually packed in barrels. A barrel is the unit of measure and simply means four sacks, each sack weighing 95 lbs. Universal Portland Cement is packed in paper or cloth sacks; in most cases cloth sacks are used. Universal is of the best quality of Portland Cement possible to manufacture. Forty million sacks are made and consumed yearly in this country. The railroads use hundreds of thousands of barrels. It is used by the biggest architects and contractors in the cities and the government uses it extensively in all departments. If you have any concrete work, ask your dealer for a sample. It is the best for concrete work of any kind.
