get the paper for a year.

A partial hearing was had in  
Justice Rose's court Wednesday  
of last week of the case of  
assault with intent to murder pre-  
ferred by Dolly Hill of Big  
Beaver against Henry Strewski,  
a farmer living on a farm ad-  
joining the Hill place. Four wit-  
nesses were sworn. Dolly Hill  
Deda Plassey and Messrs. Went-  
worth and Baum. All four tes-  
tified to being at the Hill home  
when Strewski fired eight or  
ten shots at the house. Went-  
worth said he was in the front  
yard when the shooting started  
and took refuge behind a tree.  
Baum said he was also in the  
yard at the time but after the  
first shot found shelter under  
the table in the kitchen. The  
two women said they were in  
the house and that at least two  
of the shots fired penetrated the  
side of the house and one knock-  
ed the top off the sugar bowl  
while the other dislodged the  
top of the sewing machine and  
struck the Hill woman on the  
shoe. None of the four were  
able to furnish any motive for  
the shooting. After these wit-  
nesses had been heard the case  
was continued until Sept. 19.

cannot help but be beneficial to  
this paper and greatly more  
pleasing to the patrons of this  
periodical. Carrie E. Mit-  
tchell is business manager of this  
paper and will always be found  
in her office, second floor of Cen-  
tral block, ready to receive news  
of all kinds, subscriptions and  
Job Work. This is a move that  
we are pleased to make and in-  
vite our readers to drop in the  
new quarters, bring in your  
items, your cash and your orders  
and you will soon see, how we  
will thrive under the increased  
patronage that you are pleased  
to give us.

Come around  
and say 'Hello'  
to me at the  
State Fair

I am going to be out at the State Fair  
all week and every minute I will keep  
open house for the business men from  
the country.

I want you to come around and talk  
automobile with me.

I will have a complete line of the ex-  
cellent Cartercars with me and will  
gladly explain all their good features to  
you. It will do you good to get ac-  
quainted with the Cartercar, and you  
will then understand how logical is its  
slogan, "The Car Ahead."

You will clearly see why they are the  
very best cars for farmers and all other  
people.

Cartercars are designed and construct-  
ed for the men who want the highest  
quality at a fair price. They are not  
the "cheaper than walking" cars—nei-  
ther are they for "millionaire clubs" on-  
ly. Cartercars are practical cars for  
practical men—and such men have long  
appreciated them.

For several years I have made close  
observation of the construction and the  
service given by the Cartercar Friction  
Transmission and I am firmly convinced  
that it is the only transmission that is  
suited absolutely to the needs of the  
farmer.

This transmission makes the Cartercar  
EXTREMELY EASY TO CONTROL.  
The driver has any number of speeds al-  
ways at his command, easily and noise-  
lessly controlled by one lever. This

can stop the car—start it—change the  
speed from the highest to the lowest—  
or even reverse it without the occupants  
feeling the change.

In all kinds of tests, the hardest that  
could be imagined, the Cartercar has  
proven its worth and ability.

The Cartercar rolls along swiftly and  
noiselessly, brushing everything on the  
pike. It will take a 50-per-cent grade  
handily, and on account of the strong  
brakes is perfectly safe coming down  
the other side.

In addition to the strong hub brakes  
the driver has at all times the friction  
reverse. The car can be stopped very  
quickly, making it extremely safe for  
anyone to drive. My wife and eight-  
year-old son drive our Cartercar all  
around Detroit and out into the country,  
and they enjoy it fully as much as I do.

The Cartercar requires but little at-  
tention. The driving unit is as nearly  
perfect as can be. The transmission is  
so simple and strong that it cannot get  
out of order and the chain-in-oil drive  
will run for years without any atten-  
tion except oiling annually. The chain  
case is oil tight, keeping out all sand  
and grit, thus eliminating almost all  
wear on the chain.

There are no jars or jerks for the oc-  
cupants of the Cartercar. The driver

I know several men who bought some  
of the first cars we made six and seven  
years ago and THEY ARE STILL  
DRIVING THEM!

I am expecting to see you. Come  
around and shake hands with me wheth-  
er you are thinking of buying a car or  
not. Maybe I can tell you some inter-  
esting things about automobiles—any-  
way it will be worth while to see this  
powerful, simple automobile.
