The dollars have grown into hundreds, the hundreds into houses-into farms-into wise and profitable business investments. These 'dollars of the daddies' are the basis of our present prosperity. They were not lured into speculation, or into risky investments. The "daddies" demanded SE-CURITY and accepted the returns absolute safety gave.

What about your dollars? Are they absolutely safe? The standard of returns from high-class investments is four per cent, and that is the return from your deposits in the Savings Department of the ROYAL OAK SAVINGS
