

TO THE VOTERS OF OAKLAND COUNTY

In issues of Oct. 25 and 26 of the Pontiac Press Gazette, there appears an article signed by the Oakland County Republican Committee...

It may be interesting to the voters of this county to know just how my appointment as deputy sheriff came about.

On the morning of the 19th of September last year, Sheriff Tripp called at my wool store in the Osmun building adjoining the county jail...

It is also true that I was Deputy Sheriff under Sheriff Brewster, as I was, also, under Sheriff Greer, a Republican, but to which the Committee did not see fit to refer.

Mr. Voter, does not the article, authorized by the Oakland County Committee, show the desperate limits to which they will go in order to secure the election of their candidate for sheriff and thereby assist the ring rule, for which, I believe they stand?

Let every voter in this county read their article, and when taken with the facts, I think you will be able to see the cheap, petty politics, to which they are resorting.

I am known by nearly every farmer in Oakland County; was, for a long time, president of the Oakland County Insurance Co., with over eleven million dollars at risk.

Less Politics and More Business

Your patronage at this election will be appreciated.

Comparison of prices on farm products under the last Democratic administration with the prices of today.

Table with 3 columns: Product, 1896 Price, Today Price. Includes items like Wheat No. 1 white, Oats, Corn-shelled, etc.

Wool quotations taken from Oakland County Post of October 9, 1894. No quotations in issue for 1896.

The tariff plank in the Democratic platform of today is the same as it was then. A vote for Wilson is a vote for the prices of 1896; a vote for Roosevelt is half a vote for Wilson and the same price, but a vote for William Howard Taft is a vote for the continuation of the prices of today, and four years more of prosperity.
