A Nervous Woman Finds Relief After Many Years

Women who suffer from extreme nervousness, often endure much suffering before finding any relief.

Mrs. Daniel Kintner, of Delafield, O., had such an experience, regarding which she says:

"I had stomach trouble when I was eighteen years old that broke down my health, and for years I suffered with nervousness, headache, indigestion, and nervous epistaxis. The spasms got so bad I would have them three or four times a week. After trying nearly every remedy, I began taking Dr. Miles' Nervine, and I must say it helped me wonderfully. I have had no severe nervousness for several years."

MRS. DAN KINTNER
1002 Pleasant St., Delafield, O.

Many remedies are recommended for diseases of the nervous system that fail to produce results because they do not reach the seat of the trouble. Dr. Miles' Nervine has proven its value in such cases so many times that it is unnecessary to make claims for it. You can prove its merits for yourself by getting a bottle of your druggist, who will return the price if you receive no benefit.

Duty Not to Be Delayed.

He was a railroad man and spoke much of a railroad man. He was the father of two boys. One day he invited the minister home to dinner. The hungry boys wanted to pitch in—his father, in a stern voice, cautioned them to wait. The minister bowed his head to return thanks. The boys, innocent of what was being done, began to eat before the blessing was half said. "Excuse me a minute," said the father, addressing the minister, "until I switch a few supplies."

Taking Toll From Opportunity

It is the experience of humanity that OPPORTUNITY comes knocking at the door of every man, not once but a dozen times. We don't always recognize it, but as we grow into middle life we somehow realize that the knocking is not so frequent yet we distinctly recognize the echo of the pounding of earlier years.

The opportunity to gain advantage for one's self and dependents is an ever-present one for the industrious, thrifty, right-living man, and the OPPORTUNITY is the OBLIGATION. What use are you making of the opportunities of health and labor?

Are you grasping the opportunities at hand and making them yield the toll that means a reasonable competency and comfort when the years are not so productive? Ever think seriously of the dollars put away and what they mean to you and yours when Time is streaking the hair and painting crow feet? Ever talk these important matters over with your family in the sweet confidence of home? Did you ever fully understand that the highest mission of the
