Several changes have taken place in the Central block building, all due to general moving day. The Suburban Realty Co. have moved into larger quarters due to an increased amount of real estate business. Dr. A. L. Richardson has added the former office of the Realty company to his suite of offices. On the first floor the grocery store of W. H. Caldwell has been sold to D. W. Barnard.

A test well to the depth of 146 feet has been struck on the Springsteen farm. This has been done under the management of the water works committee composed of Harry Smith, Verne Levenseler and Wm. Sullivan. The well seems to possess an unlimited supply of pure water which flows within nine feet of the ground surface. Engineers from Detroit and many people from here have viewed the well and pronounced it excellent! A good water supply means new life for Royal Oak. Our village is rapidly growing out the absolute knowledge of an epidemic liable to come at any time, has, does now and ever will keep many people away. It is the belief of the committee if this well proves in the future as it is at present, the town will be bonded at once. Hurrah, it can't come too soon! We need it, we need it, and we should pray, work and fight for it! Let's do!

When Cyrus Townsend Brady gives the world a story it is always one that shows the touch of a master, and "The Chalice of Courage" is in his best vein. It is a western story of love and adventure but it is unlike any other ever before written. It is virile, powerful and so fascinating that it will hold you a willing and pleased reader to the end. We take great pleasure in giving this advance notice of a charming feature of the Tribune.

Clean up day was very popular last year and judging from the many inquiries which we have received we think it will meet with greater favor this year. You are expected to pick up all the rubbish in your front yards, back yards, streets and alleys—build a bonfire and thus dispose of all that will burn. The council will provide wagons to carry away the rest. Fill boxes or barrels and place where it will be convenient to load into the wagons. Remember the date and also bear in mind that clean up day is ordered by the village council.

May 1 is to be a big day for Royal Oak. The village council has named this day as clean up day for the village and it is expected that on the evening of this date the curfew ordinance will go into effect. The council has had some difficulty in trying to arrange for a proper signal, but they have at last solved the problem and expect in a few days to install a whistle which may be used also for a fire alarm. The curfew ordinance provides that children must not be found on the streets after 9 p. m. from Apr. 1 to Sept. 30 and after 8 p. m. from Oct. 31 to Mar. 31. The signal will be given 5 minutes before the above named hour every night in the week.

She left besides her aged parents, Mr. and Mrs. Maurice Collins, two sons, Collins, 15, and Lawrence, 11; one brother, Harry, of this place and two sisters, Mrs. Art Collins of Detroit and Mrs. Arthur McClelland of this village.

The funeral was held Friday afternoon at 2 o'clock from the home of her sister, Rev. St. John preaching the funeral sermon and the remains were laid to rest beside those of her late husband in Royal Oak cemetery.

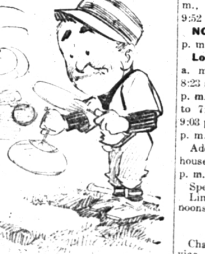

The funeral cortege was one of the largest seen here in some time showing the great esteem in which deceased was held in this community. Her husband died just seven weeks ago to the day and grief over his death is attributed to her demise. A precious one from us is gone, a voice we loved is stilled; a place vacant in our home which never can be filled.

By local applications, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of 10 are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We cure Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY, Toledo, Ohio.
