DEAFNESS CANNOT BE CURED.

By social applications, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of 10 are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give \$100 for any case of deafness caused by catarrh that cannot be cured by our Catarrh Cure. Send for circulars, free. F. J. Cheney, Toledo, Ohio.

Sold by druggists, 7c.

Take Hall's Family Pills for constipation.

The Better Understanding

The more intimate relations between this Bank and the public it serves, has come from a better understanding of mutual relations. The point of the educational campaign this Bank has entered upon is solely with the idea of being HELPFUL.

Every dollar that has been lost in purely speculative schemes, in wildcat investments, has been a distinct and lasting injury to the community from which such losses come, and an irreparable damage to enterprises of merit worthy the fullest measure of public confidence.

While we shall conduct this campaign against the schemes that are distinctly fraudulent on their face; and possibly mention facts to "adorn a tale" and hold aloft the banner of KNOWN VALUES, we want to emphasize the fact now that where you find the public prejudiced against worthy enterprises, halting local development, it is in communities where loss has been incurred in senseless speculation—where the bucket-shop lures the public into a game "where you can't see the dealer"—where securities of PROSPECTIVE value are spread in alluring forms on the commercial bargain counter to tempt greed with impossible returns. A strong Bank like the Royal Oak Savings Bank, with one-quarter million of assets guaranteeing safety, may well concern itself with conditions that are breeding distrust of worthy enterprises and halting development. Every man may well concern himself in fostering conditions that make for the prosperity of men, the stability of business, and the development of communities.
