Constitution, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health. Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. C. Ayers, 6 Sablin St., Montclair, N. J., says: "I was afflicted with constipation years, and at times I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are sufferers from habitual constipation, and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "Keep your bowels clean," and its good advice.

Dr. Miles' Laxative Tablets are sold by druggists, at 25 cents a box containing 30 tablets. If not found satisfactory, your money is refunded.

His First Job

Last week, John D. Rockefeller, the richest man in the world, hoisted a big American flag, out at his Forest Hill estate in Cincinnati. The occasion was the 56th anniversary of securing his first job, and he says that everything that followed has been the result of thrift, industry and some business sense and skill. The job was that of book-keeper in a Cincinnati river-front forwarding house. He proved to be a good accountant—one of the first-on-the-job and last-to-leave sort. One year later his salary was raised to \$25 a month, he began to save money, and the next year he was in business for himself. It is a short, simple human-interest story, containing all the philosophy of business success, and the crux of the whole matter is "he began to save money."

You probably had a better start than Rockefeller had, but the magician of millions began in the same way, and it is fair to assume from results that that the saving of his earnings was as important a matter to him as the job. The savings were made as industrious as the man. They were husbanded for the opportunity, put to work, perhaps, in some strong Bank, like the

With nearly \$300,000 of assets to guarantee their safety where they added their earnings to his and were ready to call on for the opportunity.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constant failure to cure with local treatment pronounced it incurable. Science has shown catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure in the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They are sold for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, Ohio. Sold by druggists, etc.

HARD LUCK.

Ames—Did you hear that Jones died last night?

Blames—You don't say. That's what I call rough luck.

Ames—How's that?

Blames—I paid him the five dollars I owed him the day before yesterday.

Clipping the Mind's Wings.

Quite early in life Mr. Pope had realized that it is necessary to be very careful with one's thoughts. They lead to trouble, and he clipped the wings of her own mind, therefore, so successfully that all her conclusions had become evasions, all her decisions compromises. Her profoundest working conviction was a belief that nothing in the world was of value but "fact," and that the art of living was to "hide things over"—from "Marriage," by H. G. Wells in the American magazine.

Interesting to Astronomers.

No way has been found in which the sun's corona with its unknown gases may be properly studied except during a total eclipse. The wonderful halo that the sun wears is one of the most interesting objects in the heavens to astronomers, and it is important to know all that can be known about these strange lights that shoot out millions of miles beyond the sun.

Revolutionary General's Uniform.

A Continental uniform more than 100 years old, which was once the property of General Christie of Revolutionary war fame, was one of the interesting relics of the estate of the late Margaret C. Benjamin of Ithaca, N. Y. The uniform is of white broadcloth, with silk and gold waist, knee breeches and satin stockings.

When the West Awoke.

The Great West stirred in his sleep. Then he awoke and looked about him. "Talk about the caterpillar and the butterfly," he exclaimed; "I was the spot America desert when I lay down for a half century nap, and I wize to find myself in the garden of the world."

HIS FAD

Mrs. Ashkit—What is your fad? Mr. Tullitt—My wife says I make a bad lot, having any fads.

Employed a Substitute.

Two small city boys, visiting the country, were afraid of a horse which was quietly grazing near. They made no movement toward driving the horse away, but it was evident that they desired its absence. At last another boy rode in sight. "Oh, Billy, one of the waiting boys called to him, 'Just throw a stone at that horse, will you? We're Band of Mercy, and we can't."

Know What He Wanted.

A certain small Chicago boy perpetually begged for coffee, and an elderly friend advised his reluctant mother to quench his desire for the forbidden beverage by serving him coffee at will—but strong, black, and without cream of sugar. "How do like coffee?" the child was asked, when this suggestion had been obeyed. "It would be first rate if it had cream and sugar in it," the knowing little shaver replied.

The Book Said So.

The grammar class was in session. One small pupil astonished the class by stating that to a certain section of South America there were talking monkeys. When the teacher questioned the statement the youngster opened his geography and its unphantly read: "This region is inhabited by a species of monkey; properly speaking, apes." The Delinquent.

Elderly people use Dr. Miles' Laxative Tablets because they are mild.
