

"Moth Miller" Hat

The trimming of the hat in the photograph is a replica of a moth miller. Fashionable milliners in New York now are trimming hats with representatives of the butterfly class. The hat is most effective when worn with a tailored gown or shirtwaist suit.

OUTFIT FOR READING IN BED

Russian Blouse Gown and Cap Go With This Somewhat Reprehensible Habit.

To read while in bed is most reprehensible, but if you persist in it, the practice is sure to save the proper outfit—a Russian blouse, reading gown and a cap of paper covering cap. The gown, which reaches almost to the knees, is a front closing blouse with elbow length cut-in sleeves and rounded-out neck which is finished with a broad collar of side pleated white mulline. You may make the blouse of pale-tone wool, satin or muslin, and embroider or applique with birds and butterflies or other designs. The cap is made of silk matching the gown. It is merely a circular piece filled out to a narrow ribbon, over which is placed a wide frill of plaited mulline, and at one side, usually above the left ear, may be placed a big bow of black velvet ribbon.

MODISH MILLINERY

Embellish the First Meal

Exceedingly Dainty Are the Breakfast Sets Offered in the Stores Just Now.

Exceedingly dainty breakfast sets include a cloth and small napkins. Linen damask bordered with an English chintz flower design in green and red, green and pink or green and yellow, and damasked plain towels. Another is of linen chintz embroidered in cross-stitch and a third of pie-pan patterns. New designs for table cloths include Belgian double damask with borders for square and round tables which begin at the center and widen to the edge. Irish linen with plain dots with acroll borders, clover leaves, shamrocks and roses, and damasked plain towels with flat lace monograms in one corner.

EMBEZZLE THE FIRST MEAL

POCKET PERFECTION

Inside the pocket of the blouse... Boots for Tramping.

MODISH FINISH FOR COLLAR

A row of black fringe on each and a row in depth makes a very modish look. The fringe should be a white lace or net collar. If another row of deeper fringe is added to the bottom edge of the collar, resting on the throat, it is liked all the more.

GENIUS WAS WASTED IN WALL STREET. PROPER MANAGEMENT OF SOWS OF THE UTMOST IMPORTANCE

BRIGGS WOULD HAVE THRIVED IN WALL STREET. Animals in Good Physical Condition Will Care for Their Young and Raise Them to Excellent Manner—Best Food, Just Before Farrowing Time is Wheat Middlings and Bran.

Mr. Dunham had just finished his morning chores at the farm and was going to breakfast when Briggs, the hired man, who had bought the neighboring Alden farm, appeared. He was a congenial person, with a well-placed walrus and an engaging smile.

"Morning," said the newcomer. "Morning!" said Mr. Dunham. "I'm going to be neighborly right away," declared Briggs, with an air of simple frankness. "I want to borrow your wood shed for the day. I've had no time to get settled yet, and there's an axe to do I do know which way to turn. Besides, I've got to get some wood down and I want to do it before the haulings' jobs."

"That's all right," said Mr. Dunham. "Take it and whenever. It's out there under the shed."

A day or two later the new neighbor came again. He had the axe with him. He nodded cheerfully as he passed the house and remarking casually, "I suppose it's all right to take the shed," he pitched up. This time he kept it two days.

On the next occasion when the new neighbor called, he found Mr. Dunham missing. Learning against the station with his hands in his pockets, he began:

"Dunham, I like that shed of yours. It's new, isn't it?" "Why, yes, it is new this season."

"What did I do to you?" "Well, it's worth it, and you ought to have some profit on it, too. Now, I'll give you a good, warm, dry, well-ventilated shed for the day. I don't care what the pen being over you, sixteen feet square is large enough for four sows, up to two weeks before farrowing. After that, I'll give you a separate pen with her pig. I like this pen to be ten feet square with tight bedding, cut straw is preferable."

The best food for a brood sow is wheat middlings, the coarsest of the better, with bran and middlings may be mixed half and half. This mixture...

HEART NEEDS ESPECIAL CARE

Strain on the Vital Organ Must Be Avoided. When Middle Life Has Been Passed.

The death by heart failure of Gen. Frank D. Rowland, who served in the Civil War, is a sad example of the danger of neglecting the heart.

Dr. J. H. Caldwell, of Chicago, says that the heart is the most important organ of the body, and that its health is essential for the health of the whole body.

CUTCURA OINTMENT HEALED BAD SORE ON LIMB

Some time ago I was coming up some steps when the board cracked under me like an egg shell, and my right limb went through to the knee, and scraped the flesh off its bone. Just inside and below the knee, I neglected it for a day or two, then it began to hurt me pretty badly.

When I began to use Cuticura Ointment on the sore, it stopped hurting immediately and began healing itself away. It was a bad-looking sore before Cuticura Ointment healed it, and I suffered no comfort sleep from ten days after I fell until I began using Cuticura Ointment.

Cuticura Soap is the best soap I ever saw. I have used all kinds of soap for washing my face, and always it would leave my face smarting. I had to keep a lotion to stop the smart, no matter how expensive a soap I used. I find at last Cuticura Soap is a soap that will clean my face and leave no smarting. If I do not have Cuticura Soap, I cannot wash my face. I use it on my face every day.

What is really best for us lies always within our reach, though often overlooked—Longfellow.
