Mark Halsey and Wm. Palmer and families returned Saturday from a week's camping at Green which should rightfully be called Fish Lake, according to their stories which sound something like 75 fish caught July 3, 100 fish on July 4, etc. Now that may sound good but we haven't seen any photos of any such catches as yet. Of course Mark had to tell the same story to the band boys in the hall Monday night, which caused a faint smile and someone started playing, "Everybody's Doing It."

Won't it be great to say, "Come on to the moving picture show." And everyone will want to go too because its going to be Some Moving Picture Show. The building at the corner of Third and Main street is being remodeled now and within a few days or perhaps a week the grand opening will take place. A. G. Miller is the owner and has secured the very latest and best films. Come on and go.

Every man likes a good keen horse race. Not often is this applied to promoting good salesmanship. The Acme White Lead and Color Works have recently been conducting a unique race sheet in which their salesmen take part. Every few days each salesman received a graphic chart of the progress toward the goal, the greatest number of sales. G. C. Burnham, Jr., salesman for this company and covering a radius of 50 miles from Detroit, made a good race record. Mr. Burnham finished ninth among 144 salesmen and outdistanced some of the keenest salesmen.

Mr. and Mrs. Ready will reside in Sedalia Mo. Among the guests at the dinner were Mr. and Mrs. Frank Sage of Detroit.

Last week we made a tiny error. Oh, only \$37, worth. In speaking of the cost of oiling the streets we stated that the cost per barrel for the crude oil was \$40. Now that was the cost for oiling the entire block of Main street and the actual cost of the oil a barrel is just \$3. Well, we are as happy as though we had that \$7 to go to the Wild Bill's Best, for the oil is ordered and is going to be placed on the street. Just think of the money the Tribune saved the merchants of Main street in the prices of crude oil!

This is the time for noxious weeds to disappear. Bright and early Monday morning the Oakland Ready Co., celebrated by destroying all the unsightly and deeply noxious weeds on their lot. Here's hoping many other citizens will follow their excellent example.

Rev. H. H. Hough and family left Royal Oak for their new Detroit home Tuesday. They will reside in the Tabernacle parsonage at 125 Howard street. Attorney George A. Dondero will watch the village interests.

Concrete Needs No Repairs
Repairs are the bane of the property owner. Today it is porch steps, tomorrow it will be a new sidewalk, soon it will be a new curb. Why not cut out this troublesome patching? Build these things once and for all by using concrete. It will stand the frost, rain and sun for years, if you make it carefully. Use clean coarse sand, VERSAL Portland Cement and stop that repair nuisance. Ask us for assistance.

Ten Billion in Gold.
It is estimated that in the last four centuries gold worth \$10,000,000,000 has been obtained. Much of it is found on the surface while some is mined. In three years the fields of California produced \$180,000,000, while in the same time Australia supplied the world with \$300,000,000 in gold.

Use for Murderers.
The abolition of capital punishment for murder has not borne such fruits in states where it has been tried: so to create any great enthusiasm for the change, the people are invited to say with the witty Frenchman, "Let the murderers set us an example!"—New York Commercial.
