

DEMOCRATIC CANDIDATE GIVES HIS IDEAS ON WAY NATION SHOULD BE GOVERNED.

SEES TWO BIG THINGS TO DO

Would Set Up Rule of Justice and Right in Handling Tariff, Trade, Etc., and Protect Our People and Our Resources.

Sen. Giff, N. J., Aug. 7-Governor Woodrow Wilson today received the committee of the "little White House" to notify him of his nomination for the presidency by the Democratic party.

Two Great Things to Do. "How do we expect to handle each of the great matters which will be taken up by the next congress and the next administration?" said Mr. Wilson, and he answered his own question as follows:

What is there to do? It is hard to sum the great task up, but apparently this is the sum of the matter. There are two great things to do. One is to set up the rule of justice and of right in such matters as the tariff, the regulation of the banks, the prevention of monopoly, the adoption of our banking and currency laws to the varied uses to which our people must put them.

Revision of the Tariff. Coming to the tariff question, the governor said that the schedule "has been made up for the purpose of keeping as large a number as possible of the rich and industrial manufacturers in the country in a good humor with the Republican party, which desired their constant financial support.

There should be an immediate revision, and it should be downward, unconditionally and steadily downward. It should begin with the agricultural and should be most obviously used to kill competition and to raise prices in the United States.

Control of the Trusts. The governor spoke of how recent investigations have revealed the connection between the tariff and the movement of the trusts, and he brought to the subject of trusts, concerning which he said in part:

Power in the hands of great business men does not make me apprehensive, unless it springs out of advantages which they have not created for themselves. It is not so dangerous because it is big, but because its bigness is an unwholesome influence that they have not created for themselves.

King Shows Appreciation. The King of Italy has sent to Alexander Black, Birmingham, Kirksville, Mo., a silver medal and a diploma of recognition of the services which he rendered in the relief of the Italian refugees in 1908.

the government; they are national investments. The question of a merchant marine trade back to the tariff again, to which all hands seem to feel, and to which all hands seem to feel, and to which all hands seem to feel.

Concentration of Credit. But the problem and the difficulty are much greater than that. There are not merely great trusts and combinations, but there are combinations and trusts which are monopolies and trusts which are monopolies.

There is another duty which it is our duty to perform. It is our duty to prevent the concentration of credit in the hands of a few individuals, and it is our duty to prevent the concentration of credit in the hands of a few individuals.

Free to Serve the People. In carrying out the government's duty to prevent the concentration of credit in the hands of a few individuals, it is our duty to prevent the concentration of credit in the hands of a few individuals.

At the residence of Mrs. Sarah Broderson, aged 79 years, a widow, who has been confined to her bed for several months, a government physician was called to attend to her.

Charlotte.—R. H. Kitchen, night operator at the Michigan Central, was arrested on Sunday and charged with carrying a concealed weapon.

Richmond.—Mrs. Elizabeth Stone, seventy-eight years old, is dead after a long illness. She leaves one daughter, Mrs. E. Weisman, the wife of a Richmond merchant.

Hastings.—Through clues and trails, which they had been following for several months, officers made raids on several "blind pigs" in the city.
