Home Builders Want Good Lumber

In fact, most of them absolute.

In fact, most of them absolute the best that their money will buy, and in that particular we heartily agree with them, because that is just the way we buy all our Lumber. It must be strictly up to the grade: There are some manufacturers, however, who interpret grades more liberally than others, and you can bet your last dollar that we know who they are. Because of this inside knowledge we're not afraid to put our Lumber of the single we're not afraid any in the country. Come in and look this Lumber over and let us make you prices.
