Improved Vacuum Cleaner.

A new vacuum cleaner, designed to be operated by water power in a sink or bathtub, consists of two suction pumps driven by a water wheel, and a chamber in which the dust is collected, to be washed away by the waste water.

A CURE FOR PILES.

Cole's Carbolisalve stops itching and pain—and cures piles. All druggists. 25 and 50c. Adv.

Some people would rather make an effective disappearance than a good appearance.

YOUNG WIFE SAVED FROM HOSPITAL

Tells How Sick She Was And What Saved Her From An Operation.

Upper Sandusky, Ohio.—"Three years ago I was married and went to housekeeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, a back ached, my sides ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches, too, and became almost a nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so, when I saw your advertisement in a paper, I wrote to you for advice, and have done as you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health.

"If sick and ailing women would only know enough to take your medicine, they would get relief." — Mrs. IRENE H. SWASEY, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, backache, extreme nervousness, inflammation, ulceration or displacement, don't wait too long, but try Lydia E. Pinkham's Vegetable Compound now.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy and should give every one confidence.

Eczema from boyhood Resinol cured him

TOLEDO, O., May 10, 1912.—"I have completely cured my eczema, suffered with it ever since I was a boy, and I am now 47 years old. My arms and face would break out, and I was tortured with itching, especially in the spring, fall and winter. On my cheeks my skin would turn red, itch and crack, and more so on my wrists. They would split open and bleed.

"I was in a hospital one day to see a friend who had skin disease, and I found they had cured him with Resinol Ointment, and Dr. ——, one of the best in Chicago, recommended it for my eczema. I used it with Resinol Soap, and to my surprise they have completely cured me. My skin is clear." (Signed) CHAS. J. STROBEL, 719 National Union Building.

Resinol Soap and Ointment are invaluable household remedies for eczema, boils, burns, wounds, chafings, pimples, etc. Nearly all druggists sell Resinol Soap (25c) and Ointment (50c), or they will be supplied, free, upon receipt of prize, by Resinol Chemical Co., Baltimore, Md.

A WONDERFUL DISCOVERY.

In this age of research and experiment, all nature is ransacked by the scientific chemist for comfort and hope of man. Science has indeed made wonderful strides in the past century, and among the greatest and most important—discoveries in medicine is that of Thera-pion, which has been tested with success in the French Hospitals and that it is worthy the attention of those who suffer from nervousness, nervous diseases, chronic weakness, ulcers, skin eruptions, piles, &c., there is no doubt. In fact in America and Europe, the ablest chemical specialists, that "Thera-pion" is destined to take the place of many of these questionable remedies that were formerly the sole reliance of many physicians, and of course Dispensers who will not advise what they like to tell them in this short article, but they will be glad to let you know more about this remedy that has effected so many—we might almost say, miraculous cures, should it not be delivered and have the desired effect. Dr. Le Clerc Med. Co., Haverstock Road, Hampstead, London, N.W., and the Parisian Chemical Co., 26 Cortlandt New York Remedy "THERAPION" No. 1, 50 c. per box is what they require and have proved it to be a cure during a life of misery, suffering, ill health and nervous collapse. Sold by druggists or by mail from E.D.E. Forgeus Co., 26 Beekman St., New York.

DR. J. D. KELLOGG'S ASTHMA

Remedy for the prompt relief of Asthma and Hay Fever. Ask your druggist for it. Write for FREE SAMPLE. NORTHROP & LYMAN CO., LTD., BUFFALO, N.Y.

Pettit's Eye Salve FOR EYE DISEASES

NEW FACES ON PRISON BOARD

OSBORN MAY OUST WERNICKE AND FRENSDORF, HAS THEIR RESIGNATIONS IN HIS POSSESSION.

DISGUSTED WITH MISMANAGEMENT. SIMPSON TO TELL OF "PLOTS".

Up to Wernicke and Frenadorf to get Busy and Find Competent Warden for Jackson Prison.

Though that fact is not generally known, Gov. Chase S. Osborn has in his possession the resignations of O. H. L. Wernicke of Grand Rapids and Edward Frenadorf of Hudson, members of the board of control of Jackson prison, and it is strongly hinted that unless they get busy and find a competent warden he will accept them.

The resignations are not of recent happening, but in keeping with the wish of the chief executive Messrs. Wernicke and Frenadorf rendered the governor their written resignations when they accepted their appointments. Gov. Osborn insisted on their doing so as a matter of precaution, having profited by the experience of previous governors who ran against snags when they attempted to do things with the state institutions.

Simpson Offers to Quit.

It is also said that Gov. Osborn has Warden Simpson's verbal promise that he would resign whenever requested to do so, but the chief executive is waiting to give the board of control opportunity to act before he starts to swing the ax himself. That the governor is disgusted with the management of Jackson prison needs no comment, and while he and Mr. Wernicke are close personal friends, it is known that their official relations are strained, to near the breaking point.

Wernicke's position is that the governor can accept his resignation if he wants to do so, while the governor has been hoping that he would rise to the occasion and realize that prison management consists of something more than conversation and promises.

The trouble with Jackson prison is lack of expert management and is proof of the old adage that a good farmer does not always make a good prison warden.

Building a Navy.

Forty-six war vessels—quite a respectable little navy in themselves—are now in the builders' hands in various stages of completion intended for Uncle Sam's navy, according to a report issued by the naval construction bureau.

The list includes six battleships (all dreadnaughts), 11 torpedo boat destroyers, 17 submarines, one submarine tender, two seagoing naval tugs, four naval colliers, and one gunboat.

In work on the big ships the New York navy yard contractors have far surpassed the private ship builders, having advanced the big battleship New York 4.8 per cent, or a total of 53 per cent during the month of August.

Switching Rates Protested.

Directors of the Western Michigan fair, at Grand Rapids, and exhibitors at the fair, have filed a protest against the switching rates of the Grand Rapids & Indiana Railroad Co.

The complainants say that the company is charging $8 per car to switch exhibits to the fair grounds, and as the company is the only one entering the fair grounds, the exhibitors are forced to pay.

The shippers contend that the decision of the railroad commission in the Haggerty case should apply, in which the commission held that a railroad was obliged to accept cars from another railroad free of charge of delivery to the consignee. The decision has since been adopted by nearly every state in the country.

Shot by Brother, Babe Loses Both Legs.

The 1½-year-old daughter of Oscar Kujanpan was shot through the hip by her 10-year-old brother at the homestead of their father, 13 miles south of Negaunee.

At the time of the accident the parents were at a picnic. The child is expected to die, as it will be necessary to amputate both legs.

Panama Canal Opening.

The Panama canal is to be opened to traffic in the fall of 1913. This statement was made officially at the navy department. Saturday with an announcement that the Atlantic fleet would be rendezvoused at Colon this winter before the water is turned in. The navy's estimate is based on the latest report from the army engineers.

Battle Creek's fight to prevent public bathing in Lake Goguac, whence comes the city's water supply, will be fought out in the circuit court.

Proposed increases in freight rates on print paper, ranging from 2.75c to 4.25c a 100 pounds from Sault Ste. Marie, Ont., to various destinations in the United States, were suspended Saturday by the interstate commerce commission from September 14 until January 11 next.

That the city of Adrian does not consider the retraction of a gift as a breach of civic etiquette is evidenced by a resolution adopted at the council meeting whereby the council seeks to reclaim from the Page Fence Co. that part of Sarah street lying between Erie and Michigan streets.

Following the example of J. P. Morgan and other extensive collectors of art treasures, Thomas F. Ryan is to build a private art gallery adjoining his Fifth avenue residence in New York. The building is to be of white marble, two stories high, and will cost upwards of $100,000.

English militant suffragettes, who recently decided to go to Canada at an early date as a protest against the Canadian premier's views on suffrage, will find themselves stopped by an order from the department of immigration on the ground that they are undesirable in the meaning of the immigration act.

THE MARKETS.

LIVE STOCK.

DETROIT—Cattle: Quotations on all kinds of live stock, with the exception of hogs, were higher at the stock yards this week. Knox Goes East.

W. Frank Knox and John A. Muehling, owners and publishers of the Sault Ste. Marie News, have sold their entire holdings to George A. Osborn, son of Gov. Osborn.

Messrs. Knox and Muehling will remove to Manchester, N. H., where they will begin the publication of an evening newspaper about Oct. 1. This field which they are invading has a population of about 100,000. Their Manchester paper will be the progressive organ in New Hampshire.

Gov. Bass and Winston Churchill, the progressive candidate for governor, were active in promoting the enterprise.

A gas well discovered under a Beulah livery stable is still producing in strong volume.

Both Mark King, of Cheboygan, Republican candidate for state representative, and John Noll, the Democratic candidate, are prevented from doing political work by the fact that their families are quarantined on account of diphtheria. Several cases have developed in the city, resulting in the closing of the Central school district, measures are being taken by Health Officer Tweedale, and he expects to stamp out the scourge in short time.

The committee of 25, selected at a mass meeting held some time ago for the purpose of taking some actions to prevent the boosting of valuation in Kalamazoo stated that they will start legal proceedings within a few days.

From all parts of eastern New York and western Connecticut there came reports of the heavy damage caused by lightning and hail during a brief but violent storm. The loss to the Connecticut tobacco crop from the hail is estimated at $100,000. The hail stones in some sections were so large that they went through the roofs of barns and outhouses, while hundreds of windows were shattered.

MICHIGAN HAPPENINGS

Battle Creek.—In her desire to do right and amend the wrong act, Mrs. Nettie Sellers had her own son arrested for stealing a bicycle. She noticed that he rode one home early in the evening and at once asked him where he had stolen it. He told her and together the mother and son returned it. The matter preyed on her mind, so that in her desire to be right, she called up the police and told of the matter. The son was allowed to go when Mrs. Sellers explained that he had been injured some time ago and that ever since he had displayed a peculiar mania for taking bicycles.

Kalamazoo.—When the 2,000 delegates from Michigan come to Kalamazoo to attend the annual state convention of the good roads convention to be held here September 18 and 19, they will be shown how the commission uses county prisoners in road building. Arrangements were made for 600 automobiles to take the delegates on a tour of road inspection through the county. It is possible that 100 more machines will be necessary. When the 2,000 delegates leave Kalamazoo for the trip it will be the largest automobile party ever made up.

Coldwater.—William J. Gillette was sentenced to five to fifteen years at Jackson, with the recommendation of seven and a half years. Gillette pleaded guilty of entering the Bronson depot and rifling a mail sack, later going to Toledo and cashing a local check for $150 which was sent to parties in Bronson.

Sault Ste. Marie.—Charging him with the larceny of $2,200 from the bank funds, a warrant was issued for William D. Raeburn, who was until a few days ago assistant paying teller of the Central Savings bank. A search of the city has failed to reveal his presence, and his wife and baby were found penniless.

Grand Rapids.—Raymond Smith, buyer for a commission house, shot and killed his wife and then ended his own life with the same weapon. Mrs. Smith had started suit for a divorce, and Smith was enjoined from molesting her. He was thirty-nine and she twenty-two years old. They were married in 1899.

Cheboygan.—A marriage license was issued to John Williams, eighty-one years old, and Belinda Newell, sixty-four. Williams, an old soldier, has been married twice before, while the bride has been married four times, having lost three husbands by death and one by divorce.

Traverse City.—The permanent site commission of the Michigan National Guard looked over a site at Interlochen, going from here by motor car. As to the prospects of the selection of this as the permanent site, the commission was noncommittal.

Sault Ste. Marie.—William M. Everett, owner of the Great Lakes laundry here, a retired capitalist and former mayor of Petoskey, died of heart trouble after a brief illness. The remains will be taken to Petoskey for interment.

Lansing.—Earl Harry is reported in a semi-unconscious condition as a result of a nervous shock he sustained following the running down of James Connelly by the automobile truck he was driving. Friends stated that his recovery was doubtful. Connelly, an aged street cleaner, died as a result of the injuries sustained. The accident happened while Connolly was engaged at his work. Bystanders say he stepped aside to avoid being hit by an automobile directly into the path of the truck, which was approaching from the rear. Being partially deaf, he was unable to hear the signal of Harry. Connelly was taken to the City hospital and Harry to his home.

Jackson.—Jackson prison is still under military guard. How long the troops are to remain is not known. It was rumored that the provisional company, as it is known, had been ordered home, but this was denied by Captain Blackman, who is in charge of the troops. Strict military rules are being observed and Captain Blackman states that greater care will be exercised from this time on. A guard is maintained outside the walls, but none of the militiamen are on duty inside the prison.

Jackson.—Mrs. Izzn Inglewright ended her life by swallowing carbolic acid. She was found dying by her husband. Despondency because of ill health caused her to commit the deed.

Sault Ste. Marie.—Henry Hendrickson, seven years old, lies in the hospital, shot through the stomach, and is not expected to recover. He and Cecil Osterman, twelve years old, were playing in a vacant lot when young Osterman found an old 22-caliber rifle. Securing a cartridge, he Osterman boy attempted to force it into the rusty gun with a stone. The cartridge exploded and young Hendrickson, standing in front of the rifle, received the bullet in the stomach.

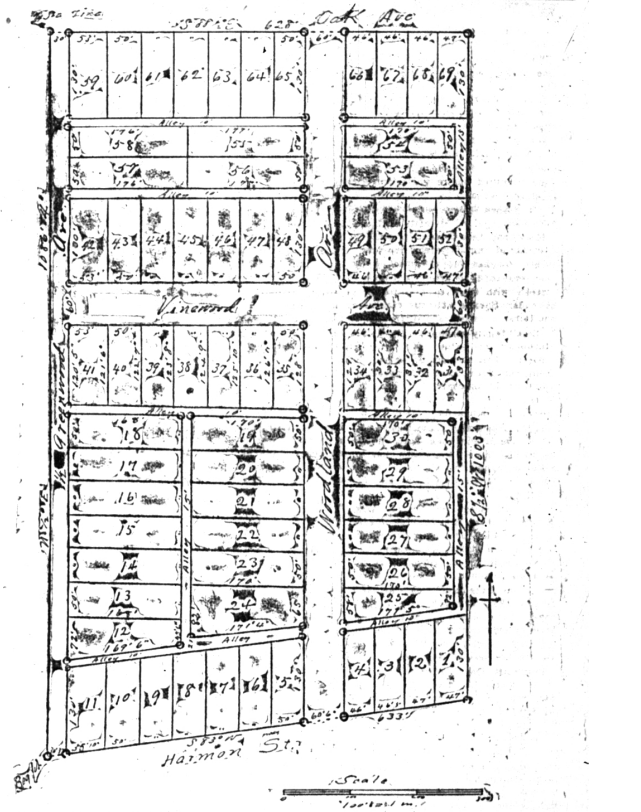
Kalamazoo.—Four-year-old Samuel Schuur died as the result of inhaling sewer gas. This is the second death in the family of Mr. and Mrs. Rufus Schuur in the past few days. Two other children lie dangerously ill in a hospital. Recently Schuur cut a pipe running from his house into a cesspool so as to connect the house with a sewer. This permitted gas to escape from the cesspool, and physicians are certain that this is the cause of the two deaths and of the illness of the two children.

The Top o' the Mornin'

Always, from

Bir'gham Heights

Cement Walks, Shade Trees and Public Sewers



Selective! Restricted! Desirable!

Is the

New Sub-Division of Whitehead & Mitchell

At Birmingham,

One Block West of Woodward Avenue

These Lots, 69 in number, are surrounded by Harmon, Greenwood and Oak Streets, high and dry, beautifully situated, and for a home or an investment, never can be excelled.

Many elegant new homes surround this attractive sub-division.

Advantages of Birmingham for Home Dwellers

Population nearly 2,000. Taxes light. Finest climate, and healthiest-located village near Detroit, being 300 feet above Detroit River, with the best class of people on earth to associate with. One of the finest schools in Michigan, averages even up and better with 10 cities in Michigan that have each a population of 4,000. Our graduates enter the U. of M. on their diplomas. Six Churches, and only 12 miles from city limits of Detroit. Cars run conveniently both to and from Detroit. We have the best Water-Works System in Michigan. We are healthy—no case of diphtheria or malignant scarlet fever has originated here for over 30 years.

See A. Whitehead or George H. Mitchell for Particulars
