

# THE PARTS OF A HUMAN BODY

A FLING BOY BECAME ENTAILED IN GUY ROPE; CARRIED 2,000 FEET IN THE AIR.

EVERY LARGE BONE IN HIS BODY BROKEN AS HE CRASHES THROUGH BARN.

Storm Does Great Damage to Crops in the Grand Traverse Region—New Compensation Law Now in Force.

Becoming entangled in one of the guy ropes of a balloon, a Trotter Amadill of Lansing became an ascendant in Flint, Chester, Betts, 14, was carried 2,000 feet into the air, then he dropped to his death. His body crashed through the roof of a farm barn near the air grounds and nearly every large bone in the body was broken.

The tragedy was witnessed by 5,000 spectators who had gathered at the fair grounds, where the ascension was a feature of the closing day of the Genesee county fair. Several made a mad rush for the lad as he was jerked into space as the balloon ascended, but so rapid was the getaway of the big gas bag that the worthy man to reach the screaming youth, who was crying, "Oh! Save me, Mr. Balloonman."

The boy, with a score of others, had been helping to hold down the balloon while Prof. Amadill was making ready for the ascension. All let go of their hold, and the boy, who was crying, "Oh! Save me, Mr. Balloonman,"

When Amadill landed a few seconds after the tragedy, he was greeted with a cheer. He said that if he had been able to hang on five minutes longer he could have saved him. Amadill told how he had attracted the crowd by swinging out on his trapeze, but fell short by 15 feet.

Storm Does Damage in many years struck Traverse city Sunday and did immense damage to wire companies, railroads and farms. Practically all telephones are out of commission on account of being burned out by contact with high tension wires of electrical companies. Young orchards located on hillside are washed out and practically ruined, while the potatoes and bean crops suffered damage estimated at \$100,000.

The west end of the city is under water, caused by an overflow of Asylum creek. One hundred feet of track on M. & N. E. railroad at Greenville, one mile west, was washed out. A score of houses were burned out at Marquette.

Considerable damage was done by lightning throughout the county, several barns being burned. All wire companies are heavy losers, and thousands of phones were burned out and some of the large cables burned out.

Compensation Law in Force. The new employers' liability and workmen's compensation law, passed by the legislature in special session last spring, now is in full force. The first two days of existence were quiet ones, being on Sunday and on Labor day, when the majority of workmen were not on duty.

George W. Perkins is treasurer of the Progressive National committee.

July Death Rate Was 11.4 per 1,000. There were 2,818 deaths reported to the department of state during the month of July, 1912.

This number corresponds to an annual death rate of 11.4 per 1,000 estimated population. A decrease of 14 deaths is noted as compared with the month of June.

There were 545 deaths of infants under 1 year of age, 181 deaths of children aged 1 to 3 years, and 1,112 deaths of adults and elderly persons, aged 65 years and over.

Important causes of death were as follows: Pulmonary tuberculosis, 144; other forms of tuberculosis, 45; fever, 41; diphtheria and croup, 35; scarlet fever, 6; measles, 5; whooping cough, 24; pneumonia and broncho-pneumonia, 21; diarrhea and enteritis, under 2 years of age, 181; meningitis, 30; influenza, 41; cancer, 193; violence, 37.

As compared with the month immediately preceding an increase is noted in the number of deaths from the common tuberculosis of organs or parts of the body other than the lungs, diphtheria and croup, whooping cough, and scarlet fever.

A slight decrease is noted in the number reported from tuberculosis of the lungs.

In addition to the above important causes of death there were two cases reported from poliomyelitis, one from tetanus, one from leprosy, and one from scurvy.

The convention of the Michigan State Agricultural Society was held at the Michigan State Agricultural Society building at Lansing, Mich., Sept. 11-12.

Had "Sacred" Knife for President. The new employers' liability and workmen's compensation law, passed by the legislature in special session last spring, now is in full force.

Gen. Booth Laid at Side of Wife. The body of the late General William Booth, was buried beside that of his wife in the cemetery at St. Dunstons, London, where the great evangelist began the work that has spread over the entire world.

Work has been started on the new \$200,000 city hall to be built in Belvidere. The building is to be a masterpiece of architectural design.

Dr. James C. Wilson died at Flint, in the eightieth year of his age. He had been in failing health for several months. The immediate cause of his death was attributed to the dislocation of the vertebrae.

THE MARKETS. DUTCH CATTLE—Canners and bulls, active and fairly higher other grades, 10.00 to 1.00. Steers and heifers, 10.00 to 1.00. Cows and heifers, 10.00 to 1.00.

East Buffalo, N. Y.—Cattle—Slowly, 1.50 to 1.80 in steers, 1.50 to 1.80 in cows, 1.50 to 1.80 in heifers, 1.50 to 1.80 in calves.

GRAIN, ETC. Detroit—Wheat—Cash and September, 1.15 to 1.16. Corn—Cash No. 2 yellow, 1.10 to 1.11.

GENERAL MARKETS. Peaches were scarce. Demand was active. Apples in good supply, but there was a shortage of the early crop.

Butter—Extra creamery, 26c. Dried milk, 1.20 to 1.25. Eggs—Fresh, 1.10 to 1.15.

Carroll Heers aged 40, who said he was from Greenville, Ohio, was arrested by Pittsburgh detectives at the hotel in Columbus, O.

Guard Caught Taking Drugs to Convicts. Trapped by former Deputy Warden M. M. Barnard, Fred Weaver, a guard at the Michigan state prison, confessed that he had carried inside the walls of the institution "bottles of white powder," the nature and character of which he did not know.

It also was learned today that the warden himself has been working for nearly a month to bring about a wholesale exposure and capture of the prison attendants who have been taking drugs to convicts.

THIRTEEN YEARS. Unlucky Number for Dakota Woman. The question whether the number "13" is really more unlucky than any other number has never been settled.

A So. Dak. woman, after thirteen years of misery from drinking coffee, found a way to break the "unlucky" spell. Tea is just as injurious as coffee because it contains caffeine, the drug in coffee. She writes:

"For thirteen years I have been a nervous wreck from drinking coffee. My liver, stomach, heart—in fact, my whole system being actually poisoned by it."

"Last year I was confined to my bed for six months. Finally I dawdled on coffee and it did not help. Then I began using Postum instead of coffee, but with little faith, as my mind was in such a condition that I hardly knew what to do next."

"Extreme nervousness and failing eyesight caused me to lose all courage in about two weeks after I quit coffee and began to use Postum. It was able to read and my head felt clear. I am improving all the time and I will be a healthy woman again."

"I have followed you with one person with a delirious cup of Postum. Mrs. S. wanted to know where I bought my coffee, and she told me that it was Postum and when she found out it was Postum she has used it ever since, and her nerves are building up."

"There's a reason." See A. Whitehead or George H. Mitchell for Particulars.

It takes more than a fur-lined overcoat to protect a would-be actor in the hall of fame.

Literal Surgery. "Did the surgeon when consulted, write that man he was going to sew up his heart with gold wire?" "No, he didn't write; he wired him."

Real Worries. "What's the trouble, with the maid?" "Servants are so silly. Seems the maid who has charge of Fido has been scrubbing the maid who takes care of the baby."

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of Dr. J. C. Watson.

Saving Trouble. "Have you read the platform of the different political parties?" "What's the use wastin' time doin' that?" "I should think you would want to find out how to vote intelligently."

To Operate Canal by Electricity. The Panama canal will be operated almost exclusively by electric power. Approximately seven per cent of the minimum water supply will be diverted for hydro-electric development.

Lo Reproduce Rio Scenes. The recent riot at the Hotel building, Los Angeles, will be reproduced at the trial of those arrested by motion picture films, and shown to the jury on a screen. It will be the first time in the history of jurisprudence that such evidence will have been produced.

Not Necessary to Leave Home. In an effort to stop the migration of drug consumptives to the southwest, the National Association for the Study and Prevention of Tuberculosis, will ask physicians to be more careful in ordering patients to go away, and will also ask railroads to discontinue their practice of selling "charity" tickets to those who cannot afford to pay full fare.

Tuberculosis can be cured in any part of the United States, and it is not necessary for a tuberculosis patient to go West. Whenever possible, the National Association urges tuberculous patients who have not ample funds to go to a sanatorium near home, and if they cannot do this, to take the cure in their homes, under the direction of a physician.

See A. Whitehead or George H. Mitchell for Particulars.
