

FARMER'S WIFE ALMOST RECK

Restored to Health by Lydia E. Pinkham's Vegetable Compound—Her Own Story.

Westwood, Md.—"I am a farmer's wife and do most of my own work when I am able. I had nervousness, indigestion, and a terrible bearing down pains every month. I also suffered much with my right side, and the doctor told me it was a kidney trouble. I was sick every three weeks and had to stay in bed from two to four days.

"I was with great pleasure I tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I have followed your directions as soon as possible, and feel much better than I have felt for years. When I wrote you before I was almost a wreck. You can publish this letter, for it may be of strength to the faith of some suffering woman."—Mrs. J. F. RICHARDS, Westwood, Md.

"Women who suffer from those distressing peculiarities of the system should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

"If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medford, N.J. Your letter will be opened, read and answered by a woman, and held in strict confidence.

"There's nothing better than marriage for bringing out all the temper there is in a hair.

"Yes," laughed the girl with the pink parasol, "is the slowest young man I ever saw."

"What way, dear?" asked his chum.

"Why, he asked for a kiss and I told him I was one of those kind who took so long to loosen."

"And what did he do?"

RIC FIGHTING

FEDERAL AND STATE RIGHTS CONSERVATIONISTS LINKED UP FOR BATTLE.

BRYAN CLASSED WITH FORMER

Strength of the Opposing Forces May Be Revealed First in the Matter of the Coosa River Dam in Alabama.

Washington.—Since George Plimchott made his speech to the Washington convention of men interested in forming the other day it has become sharply apparent that a hard fight is to begin between the federal conservationists and the state rights conservationists.

The instant that the name of a certain governor of a northeastern state was mentioned in connection with the proposed dam, the federal conservationists were quick to take issue with the state rights conservationists.

The conservationists hope that when James Bryan is made a member of the next cabinet, as to the methods of saving the country's natural resources, Mr. Bryan would be a member of the next cabinet.

Protests are coming into Washington daily from individuals and from committees over the United States against the granting of the right to a private Alabama corporation to build a dam on the Coosa river.

The Democratic leaders who are in Alabama to be used, it is claimed, without proper federal regulation.

The Coosa dam matter promises to be one of the most important in the history of the United States.

It is even possible that the present administration of the postoffice department may use what can be called a "bribe" to get the dam built.

MISSISSIPPI ON RAMPAGE

Hundreds of Families are Seeking Safety in Memphis.

The Mississippi river is now over its banks at all points between Cairo and Helena, Ark.

Certain portions of the manufacturing sections of North and South Memphis are under water and mills have closed down. Unless the river gets to the 40-foot stage there is no danger to property back of the levees.

Practically all the business section of Memphis, Ky., is from one to four feet under water. All railroad traffic into the town has been suspended.

A terrific current is sweeping through the Memphis and Chickasaw channels which officials think will create new channels, throwing the Mississippi back into a course abandoned 20 years ago.

Night Riders in Georgia. A panic has been created among the people in the southern portion of Whitfield county, Georgia, by night riders who are whipping men and women.

The night riders have been at work for some time and they have whipped many persons and have warned others that they will be whipped unless they mend their ways.

Mexican Volcano in Eruption. Colima volcano in Mexico is in violent eruption and inhabitants of several towns and villages near the mountain are fleeing to escape death by strangulation.
