LETTER FROM THE STATE CAPITOL

SAYS EDWARD D.

SURFACE.

Assistant Attorney General Lawle Resigns. After Holding Position
For Many Years Under
Several Chiefs.

[By Gurd M. Hayes.]

[By Gurd M. Mayes.]

Lissing, Mich.—Dirty streets are a common means of apreading diseases, especially tuberculosis and pneumonia, asserts Edward D. Rich, and itary engineer of the state board of health, who has prepared a table which shows that the total death from paeumonia are greater than the deaths from I yhold rever, mening the property of the state official ways to be state of the state official ways to be state official ways to be state officials. It is just as important that the streets be cleaned as that the house he swept, and probably more so, "add Mr. Rich. "In the home only those streets be cleaned as that the house he swept, and probably more so," and Mr. Rich. "In the home only those that the streets be cleaned as that the house he swept, and probably more so," and fifth your outliness are liable to stife from this neglect, while on the streets, many innocent are endangered stong with the guilty. It is always cheaper to prevent disease than to pay the doctor and far more astisfactory.

"The trouble is that we do not always to request the state officials ways to reduce tuberculosis, pneumonia and colds is to clean up. These two ways to reduce tuberculosis, pneumonia and colds is to clean up. These words should come with particular emphasis to the small town which has been actuated by pride if public appearance to pave some of its busiest in civilization and the responsibility of clean streets/rests heavy in all city officials who have approved the paverning of roadways and the construction of sidewalks. Most of the inhabitants of a small town seem to think that to pave a street is all that is necessary to make it inext. It's and sanitary. It make it inext. It's and sanitary to be a street is all that is necessary

roadway and is less likely to be kept down by sprinkling.
"Plying dust is tolerated up to the point where it becomes a nuisance and then some measures are adopted for its contrip; but too often control is all that is sought. If the nuisance of dust werf all we had to worry about, the problem would not be very serious; but the menace of dust, is serious; but the menace of dust, is serious; but the menace of dust, is because the contract of the serious and the menace of dust, is because the count of the count the cost. It is insignificant in comparison to the benefits to be derived.

fingers; then and then only can it be said to be stylictly sanitary.

Assistant Attorney General Thomas A. Lawler has tendered his resignation to Attorney General Feliows to take effect the first of the year, and after January I. Lawler will engage in private practice in this city. "Tim," as Lawler is 'Amiliarly known throughout the state, was appointed by former Attorney General Orin a number of cream significant of the first f

The mortality report for November, compiled by Secretary of State Martindale shows that 3,04 deaths and 4, 178 births coturred in Michigan last month. This is a decrease of 656 births as compared to the October root, while there was a decrease of 385 deaths as compared with the figures of the preceding four weeks and the state of the preceding four works which deaths among infantance were by deciting a support of age in the state of the support of age in the s

Gathering the Oak Leaves.
In certain sections of New Jersey
the gathering of oak Jeaves is a latesummer and autumn industry. Passing through the section where the insides of jouses and barns or any othmatter in the section where the insides of jouses and barns or any othranches can hang to dry filled with
row after row of bunches of oak.

After drying for two weeks they areput in Jeales for shipment. Last yearrow man gathered more than 15tons for shipment. The price is about \$50 a ton and
there is a brisk demand in European
titles for the oak branches thus prepared. There are 100 limbs in a bundle and 100 bunches in a best. ThisStill, some owners of woodland are in
he money making game themselves,
and charge so much per acre for the
privilege.

The gatherer does not have to sow
or cultivate—it seems as if the cropwere in gift of nature.
