Studebaker's

"I've been selling Studebaker Wagons and Buggies for over 30 years."

"I've sold them because of their reputation as a dealer was at stake and from experience I have found that Studebaker means the best."

That tells the story.

Farmers bought Studebaker wagons before the Civil war and they have been buying them ever since.

Because they had confidence in the name Studebaker and in the sturdy, dependable wagons and buggies they build.

And that confidence has been well justified. Studebaker wagons are built on honor and the Studebaker enterprise goes with every one.

There's a Studebaker for your needs whether you live in city, town or country.

For Neuralgia, nothing is better than

Dr. Miles' Anti-Pain Pills

Used by thousands for a generation

"Those who have suffered from neuralgia need not be told how necessary it is to secure relief. The easiest way out of neuralgia is to use Dr. Miles' Anti-Pain Pills. They have relieved sufferers for so many years that they have become a household necessity."

"I have taken Dr. Miles' Anti-Pain Pills for five years and they are the only thing that does me any good. They have relieved neuralgia in my head in fifteen minutes. I have also taken them for rheumatism, lumbago, pains in the back, sciatica, neuralgia and pains in the joints and limbs. I have found nothing to equal them and they are all that is claimed for them."

BLACK SILK STOVE POLISH

Keeps Your Stove "Always Ready for Company"

A bright, clean, shiny stove is the pride of every housekeeper. But it is hard to keep a stove bright and shining unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish sticks right to the stove. It doesn't run off or fall off. It stays on for four times longer than the shine of an ordinary polish. It is only used to push out the soot on the stove. It covers the stove with a clear, bright and lasting film that has been used for five years.

The "Isle of Somewhere"

In the Ocean of Promotion.

When Tom Lawson was buying thousands of dollars worth of space in the newspapers to tell you into which mining hole the ball of wealth was to drop, he "touted" Nevada-Utah with the eloquence of a better cause. Now nobody caught the spectacular Thomas fragrant delicto, but if you caught "Nevada-Utah" hot off the promotor's bat your fingers are still stinging. The Court has appointed a receiver who is now umpiring that particular mining game. It may be a vastly valuable property for all we know, but it sure has been "rigged" to add to the discomfort of the shorn lambs of speculation.

The alienists have said that some men are crazy on all subjects and all men are crazy on some subject, but that hardly accounts for the epidemic of speculation that is sweeping over the country. There is no radder to the "tramp" drifting in a sea of PROMOTION towards the "Beautiful Isle of Somewhere." The truth of experience is that men of moderate means may not take CHANCES. He can't afford to get far from the harbor of SAFETY, and his known safety is in some strong Bank, like the
