7:30 service, Topic: "Some Twice Born New." Special song "Service."  
A warm reception is extended to all.  
Stop your bad habits with Dr. Miller's Laxative Tablets.

**ANNOUNCEMENT**

The Mutual Oil & Gas Company, composed mostly of Detroit business men, having been duly incorporated under the State Laws of Michigan, are about to begin drilling for oil and natural gas on some land purchased by this Company from the Reverend Father Joseph Folta, being a part of the farm known as the White farm, two and a half miles North of Royal Oak.

No doubt the majority of readers of this paper, have been aware that natural gas and possibly oil exists in large quantities somewhere around in Oakland County and that in the past years several attempts have been made to develop land in Oakland County for oil and natural gas. The majority of the Companies organized in the past began with an insufficient amount of money, lack of experience and as a rule with practically no intention of doing real development work.

This Company has a plan of developing which not only gives it a sufficient amount of money to develop thoroughly but have in their employ men who have had 20 years of operating experience in some of the largest oil fields in the world. These men will have charge of the development work for this Company.

At the last meeting of the Board of Directors, the contract was let to Campbell-Mercill Construction Company, of Royal Oak, to erect an 84 foot derrick at once and in a short time the machinery will be placed on this property to begin drilling at once. This first well and others that will be drilled by this Company in this neighborhood, will not be test wells, but will be a 10-inch hole put down with a California Rotary drilling machine capable of going 5,000 feet if the drillers find it is necessary.

This Company has pleased to date, several thousand dollars worth of its stock and are still offering to the public the privilege of buying shares at the ground floor price, for as soon as drilling begins, the price of shares unsold at that time will advance to possibly several times the present price.

Should you be interested and wish to know more about this Company and the shares they are selling, kindly send your name and address to the main office, or telephone, or call, and the proposition will be explained to you in person.
