

"There Is a House With a Bathroom"

was an expression at one time calculated to arouse interest, but now, conditions are entirely different. To build a house without a bathroom merely raises a question as to the good judgment of the builder. People know that he has either not considered or disregarded the importance that an up-to-date bathroom has in increasing the value of the house, both as to renting and selling value.

For the finest plumbing equipment at reasonable cost we recommend "Standard" plumbing fixtures and will be pleased to show you the many artistic designs in which they are made. Ask for illustrated booklet.

Garrick Theatre

Next week Miss Borstelle has decided to revive for Detroit approval "The Lady from Oklahoma," which was given its maiden production at this theatre last summer. The piece served as a road vehicle a part of last winter and during the process of whipping it into shape several changes were made, almost all of which she witnessed the production last year will give an opportunity of deciding whether the changes were for the better or not.

"The Lady from Oklahoma" was written by the popular writer, Elizabeth Jordan and treats of a subject of paramount interest in this day of the unhappy homes and domestic misunderstandings. The heroine of the play is a prematurely old woman.

Mrs. Dixon has been content to keep the home while her husband has forged ahead and gradually risen to a responsible position in government through politics. He becomes ashamed of his old-fashioned wife and forms an alliance with one of the political wags in Washington. Mrs. Dixon goes to Washington, discovers the situation and proceeds to make herself attractive and like unto the up-to-date woman. How she succeeds is told amid comedy and pathetic scenes. This play is being repeated on account of numerous requests, and will be at the Garrick all next week, with the usual matinee weekly, Thursday and Saturday.

Why not make Savings a Family affair

"The Little Savings Bank in the home means more for the future of the children of a family, almost than all the advice in the world."

These are the words of William McKinley, the martyred president. They tell a story for every father and mother.

In making Savings a family affair you are laying the foundation for the future happiness of yourself and your children.
