"There Is a House With a Bathroom"

was an expression at one time calculated to arouse interest, but now, conditions are entirely different. To build a house without a bathroom merely raises a question as to the good judgment of the builder. People know that he has either not considered or else misjudged the importance that an up-to-date bathroom has in increasing the value of the house, both as to renting and selling value.

For the finest plumbing equipment at reasonable cost we recommend "Standard" plumbing fixtures and will be pleased to show you the many artistic designs in which they are made. Ask for illustrated booklet.

June 30th. '14 In Gettysburg Camp, and the largest Camp I ever saw,—and the most complete.

Everything better than in a summer camp on the lake. 5500 tents, 8 in each. You cannot buy anything, and it is an insult to offer to pay for what you get.

Pennsylvania will never be forgotten; not a miss in any arrangement. Just think we are 40,000 old "Koffee Koolers." The Johnnies are camped on the West, and the Yankees on the East. No North! No South!
