

### Build a Permanent Silo

A makeshift affair soon needs repairs, and never will protect your silage from heat, cold and moisture. Experience has proved a silo wall must be airtight and moisture-proof to keep ensilage from becoming sour, moldy or rotten.

#### Nato Impervishable Silo

is built of hollow, vitrified clay blocks, reinforced by continuous steel bars between each layer. These blocks are impervious to air and moisture and protect silage from extremes of temperature. Nato Impervishable Silo walls will not freeze and crack. There are no joints, no cracks or splinters—no hoops to tighten—no painting—no repair bills.

Build a Nato Impervishable Silo and you are practically through with the job forever. First cost is the just cost. They stand one year.

**Weatherproof, Theatrical, Waterproof, Fireproof**

An insurance policy in itself, against loss from wind, storm, fire, insects, frost, rot, decay, rodents and vermin, and also against the loss of silage. The most important and economical silo—the most attractive. A valuable asset to your farm buildings.

**FREE BOOK ON SILO**

### Garrick Theatre.

"The Road To Happiness."

William Hodge and his delightful "Road to Happiness," which he opened in Detroit last season, and which has been doing wonderful business in Chicago for the past 22 weeks, will return to the Garrick Theatre the week of January 19, with matinees on Wednesday and Saturday. "The Road to Happiness" had the longest and most successful run of any play this season in the United States. It is one of the true, simple plays that are always loved by everyone, a play back to nature, where people really live. And with Mr. Hodge's intangible portrayal of Jim Whitman, the country law student, it is indeed a memorable occasion to the patrons. Mr. Hodge has become endeared to everyone by his interpretation of the Kokomo situation in that play. The story involves characters familiar to small communities in the rural sections of the country.

The play tells the story how Jim Whitman brought peace and love to that little community, where hatred and jealousy had existed, by just that simple little thing—patience.

**BLOOMFIELD FREIGHT HOURS.**

We call the attention of the patrons of the Pontiac division that commencing January 19 the freight office of the Bloomfield Center station will be open for business from 8 a. m. to 2 p. m. You are respectfully asked to bear these hours in mind. It might not be a bad idea for our patrons to start now doing business in these hours—sort of practicing early, as Brother Mitchell of the Birmingham Eccentric would say.

Railroad Electric Service.

Call at the Eccentric office for a fine calendar. No two alike and everybody pleased over them.
