LOSS OF WAR EXAGGERATED

Real Facts as to Mortality and Proper ty Destruction in a Six Months! Conflict.

The destruction of war is not nearly as great as it seems. Engineering Magazine states. If people do not produce, neither do they consume, and the man who may have been making and spendneither do they consume, and the man who may have been making and spending \$10 a day comies down to the \$11 or even to the ten cent level without particular detriment to himself or to this similarly placed neighbors. The total wealth of Germany is \$60,500,000.

900 and even if the actual war wastes would some the control of the care waste to the fatherland. The average death rate in Germany is probably twenty per 1,000, or 1,200,000 a year. Kill \$40,000 solders and you have only doubled for one year the normal outflow. In four years, if the normal outflow. In four years, if the normal rate were lessened from 20 to 15 per cent, the loss of property of the control of the con
