Slow and Steady Wins

Suppose your savings account with us when started shows only a dollar to your credit. Suppose you make a practice of adding to it a dollar every week—every week. Suppose that you continue this for three or four years—
See what a nice, tidy sum of money will be yours at the end of that time, counting the interest which your money earns.
And the chances are that the schooling which you give yourself in order to deposit a dollar every week during that time will be worth more to you in the future than the money saved.
Suppose then you begin this week with a dollar.

4% if left three months

The Difference

Between a dollar saved and a dollar spent is two dollars. Have you ever thought of it in that way? The dollar saved gives you a feeling of satisfaction while the dollar spent gives a feeling of regret.
Your dollar deposited in this Bank will give you the most satisfactory feeling, for besides being saved it will be earning you 4 per cent interest if left three months.

We accept deposits of \$1.00 up.

Beware of Ointments for Cataract that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Cataract Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.—Adv.
