German and Russian reports agree that the situation in the east has not changed, although the armies are in close touch along the East Prussian frontier and across Poland and Galicia. In Galicia, however, the Austrians claim to have repuised Russian attacks and to be making progress in their campaign to drive eat the invaders.

Claim Many Priscoers.

Claim Many Prisoners.

The Russians, on the other hand, say they are making large sumbers of prisoners. Heavy fighting is still going on around Premysi and the cupolas of the forts surrounding the town are said by an Italian correspondent to have been destroyed by the big Russian siege gun, while the forts have been mined and dismantled and the magarines blown while the town itself, however, has not been diamaged.

Sarajevo, the Bonnian espital, according to a report issued at Nish, is completely enveloped by Servians, and determined efforts are being made to take the town before the end of the trial of the alleged assassians of the Archeluke Prancis Ferdinand, whose skyling started the war.
