Genuine Gas Coke

Is a "smokeless" fuel.

Smoke is waste, and a fuel which pours smoke over the neighborhood and spreads soot and dust through your house not only causes hours of extra work, but is not giving the heat you paid for.

Purified Coal

Genuine Gas Coke is purified coal—smoke, tar, gas and soot have been driven out at the gas works, leaving the heat-giving part of the coal in an almost pure state. Consequently you get more heat with far less waste.

Genuine Gas Coke will free you from smoke, soot and coal gas, and give you clean air to breathe, clean walls, clean linen, a clean cellar and a cleaner neighborhood.

With every ton of Genuine Gas Coke you buy more heat, less waste, and a sure relief from smoke and dirt. The best thing to do is to try a ton.

We Have

Accounts

As small as a dollar—as large as thousands of dollars. And no matter how large an account may be, we realize that it is made up of a certain number of single dollars. This fact ought to encourage those who earn moderate incomes. If ought to induce them to do something toward accumulating a worthwhile provision for the future. We maintain that a savings account at this Bank (an account in which the owner is really interested) is an investment hard to beat.

The Difference
Between a dollar saved and a dollar spent is two dollars. Have you ever thought of it in that way? The dollar saved gives you a feeling of satisfaction while the dollar spent gives a feeling of regret.

Your dollar deposited in this Bank will give you the most satisfactory feeling, for besides being saved it will be earning you 4 per cent interest if left three months.

We accept deposits of \$1.00 up.

Name, Please First in Diamond Industry. There is nothing lovelier and sweeter than an old lady willing to admit head of the diamond industry in her years, and nothing more ridicle-rop; of late Antwerp has forged lions and pathetic than one who enters ahead and takes first place. American the delusion that clothes and diamonds are largely specialties in small puffs and powder can show the years stories and its superiority over Antwerp in cutting these diamonds is unquestioned.

Chinese Drinking Grape Juice. Southern China is using increasingly great quantities of grape juice, which is a new article there. The climate is hot, and cool drinks are needed. Alcoholic drinks do not answer the demand in all ways.
