

Build a Permanent Silo

A makeshift affair soon needs repairs and never will protect your silage from heat, cold and moisture. Experience has proved a silo wall must be airtight and moisture-proof to keep silage from becoming sour, moldy or rotten.

Natco Imperishable Silo

is built of hollow, vitrified clay blocks, reinforced by continuous steel bars between each layer. These blocks are impervious to air and moisture and protect silage from extremes of temperature. Natco Imperishable Silo walls will not freeze and crack. There are no staves to warp, shrink or splinter—no hoops to tighten—no painting—no repair bills.

Build a Natco Imperishable Silo and you are practically guaranteed with the job forever. First cost is \$1.25 per sq. ft. (125 square feet cost \$155.)

Weatherproof, Decayproof, Vermineproof, Fireproof

Imperishable silos in built-up silos have been used in various parts of the country. They are used for storing silage, hay, grain, etc. They are built of hollow, vitrified clay blocks, reinforced by continuous steel bars between each layer. From one who else under the sun would we believe the following story. Mr. Fred Mallerer with Jack Binman for first and best witness saw a big flock of wildducks flying over his place last week. They were headed for Medicine Hat which according to Mr. Mallerer promises an early spring. Hope the sign proves correct.

Clear and away from National Military Home, Kansas, comes the news of a new baby boy at the home of Dr. Lloyd G. Campbell who came to the happy couple Friday January 30, 1914. BIRMINGHAM SCHOOL NOTES.

An excellent program is in preparation for the next meeting of the high school literary society, which will take place Tuesday evening Feb. 10. The chief number of the program is a lively little sketch presented by six of the high school girls entitled, "My Aunt from California." Miss Mitchell is editor of this issue of the "Standard Eclectic" and a good edition is promised. Dr. Rainey has secured for a vocal solo and there will be other vocal and instrumental numbers by members of the society. All interested are cordially invited to be present.

Rev. Kraft spoke last Tuesday morning at the chapel exercises in the Barnum School. He spoke on the subject "Developing the Powers of Observation." Music for these exercises were furnished by the pupils.

The boys section of the 7th grade have the rather unusual record of securing the highest record for attendance and punctuality of all the grades at Barnum school, for the months of December and January they had the very excellent record of 99.1 and 98.4 percent.

Laura Shattuck and Lucile Campbell of the 5th grade held perfect records in spelling for the month of January.

Members of the sub-primary grade have organized a kindergarten band under the direction of their teacher Miss Carpenter. The principal instruments are drum triangles, tambourines, castanets, bells and xylophones. They hope soon to master the "Anvil Chorus" and other selections appropriate to this collection of instruments.

The entire faculty of the Birmingham schools attended the Institute held at Pontiac last Friday. The meeting was one of the most successful of the kind ever held in Oakland County. Governor Ferris had charge of the meeting and gave an address at all of three sessions. The church was not large enough for all who wished to hear the Governor speak. Harold Jarvis the Detroit tenor sang at all three of the sessions.

The fourth grade are greatly enjoying the Eclectic readers recently added to their library. The books are very good material for supplementary reading, and have aroused much more interest in the study of geography. This grade are now studying the stories of the Illinois and Oregon.

A number of the students in the sixth grade accompanied by two of the teachers went to see the very fine production of Julius Caesar in Detroit last Saturday afternoon. The grade have just begun the study of this classic and were much interested in the very good performance given.

The Amveter radio club of The Birmingham schools held its second meeting at the rooms of the Public Library, Monday Feb. 2.
