Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube becomes inflamed, the hearing is impaired, and when it is entirely closed, deafness is the result. Unless inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of 10 are caused by catarrh, which is nothing but an inflammation of the mucous membrane. We will give \$100 for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY, Toledo, Ohio.

Sold by druggists, 75c.
