The mice have worked havoc amongst the fruit trees this winter and spring by gnawing the bark of the trees just above the ground. The young fruit trees on the John Peters farm have been badly damaged by the operations of the mice.

Codnor must duly inform the farmers receiving shipments from him that it is necessary for each and every one to be promptly on the spot at the designated time or the shipment will have to be stopped. I am pleased to have accommodated my friends and am still willing to accomodate them if they will only be on the spot when the day of delivery comes—the appointed time.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of 10 are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give $100 for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY, Toledo, Ohio.
