DAISY FLY KILLER  
...  
MONARCH'S ACT SURPRISE  
Old Lady Thought it Undignified That British Monarch Should Bow His Own Nose.

When King George of Great Britain came to the throne there were wild rumors that he took so little interest in horse racing that the turf would suffer. This year, however, His Majesty has attended a number of the big race meetings.

One recalls the story told of an early royal visit to Doncaster. An old Yorkshire woman had gone on the course for the sole purpose of seeing royalty, and she called out excitedly: "Which is the king? Which is the king?"

"There he is," said some one near: "That's him with the handkerchief in his hand."

"Ah!" gasped the old lady, a touch of reverence as he turned.

Just then his majesty, who had a cold in the head, performed a commonplace little operation.

"Goodness me!" the old lady exclaimed again. "Ho—he blows his own nose!"

Red Cross Ball Blue makes the laundry happy, makes clothes whiter than snow. All good grocers. Adv.

Nothing Left Behind.  
"Are you afraid to go away and leave your windows unlocked?"  
"Not at all. What is there to be afraid of?"

"I should think you'd be afraid that the thieves would get in and steal your valuables."

"Oh, no. We don't own more jewelry than we can wear."

Libby's Pork and Beans  
Delicious - Nutritious  
Plump and nut-like in flavor, thoroughly blended with choice pork. Prepared the Libby way making each can more appetizing and satisfying, nor of greater food value. Put up with or without tomato sauce in excellent dish served hot or cold.

Insist on Libby's Libby, McNeill & Libby, Chicago

THE FAMOUS WEST MICHIGAN PIKE

meeded that six loads be used of the same. Many farmers have used the soil on the ground after plowing, then dragging it in before sowing it.

West Michigan Pike on Outskirts of Traverse City.

Next to a discussion of how the crops are coming the farmers of the western part of the state are talking most about the new famous West Michigan Pike, which runs from Michigan City to Mackinac City. Already many fine sections of the road are completed, and much work has been done towards getting other sections in good condition.

By H. J. DANIELS.  
The Michigan fruit belt is well along on what will be a record-breaking crop of fruit. The first heavy shipment of fruit went out several nights ago and consisted of 40,000 cases of strawberries, leaving by boat for Chicago.

Stone Bridge on West Michigan Pike in Leelanau County.

STATE EMPLOYMENT BUREAUS.  
During the months of March, April and May, 1912, farm hands were sent to farmers in Michigan through the free employment bureaus in the state.

There are five of these bureaus, one each at Detroit, Saginaw, Grand Rapids, Kalamazoo and Jackson. Last year during the same months only 621 farm hands were sent out. During the 11 months ending June 1 these bureaus have found labor for 35,969 persons, 8,999 being women.

The expense of maintaining the five free bureaus during the 11 months was \$7,565, but the positions were secured with no expense to the men seeking employment.

WANT MICHIGAN POTATOES.  
A leading commission house at Norfolk, Va., has written to the Houghton County Potato Growers' association for the first call on the association's pure-bred Irish Cobbler seed potatoes next fall.

What Elgin, Ill., is to the butter industry of this country, Norfolk is to the potato market. Norfolk is the "backbone" of the potato industry in the United States. This district has suffered in the last year from potato diseases, and the letter received would indicate that the Virginia potato growers look to Houghton county potato growers to replenish their fields.

MARLBINGS RESULTS.  
More Michigan farmers are finding that the use of manure as a fertilizer brings great results. Around Dowagiac this summer much of it is being used.

VALUE OF ALFALFA.  
The value of alfalfa continues to be touted by the farmers of Michigan. Three acres of alfalfa on the farm of G. H. Redfield in Mason township, Cass county, have been yielding two tons of good hay for several years, besides a pasturage which has fattened a good brood of hogs.

A Good Ration.  
A good ration for a horse that is troubled with indigestion is mixed as follows: Ground oats and corn, five pounds each; four ounces of oil meal, two ounces of salt, a desiccated spoonful of powdered gentian and a small spoonful of dried sulphate of iron.

Great Interest in Dairying.  
Interest in dairying is greater than it has ever been before and it will continue to grow as long as the present prices for dairy products continue. The chances are that there will be a reduction in these years for come.

Good for the Horse.  
Roots—by reason of their succulent, laxative action upon the horse's bowels, and on this account, alone their use for feeding to stabled horses in the winter is to be strongly advocated.

CARE OF THE DAIRY PRODUCTS IN SUMMER  
THE WATCHWORD OF THE CAREFUL DAIRYMAN SHOULD BE  
"CLEANLINESS AND COOLNESS"

By C. E. Newlander, Instructor in Dairying, Michigan Agricultural College.  
The dairy interests of the state suffer immense losses every year from spoiling and deterioration of products during the summer season.

Importance of Cleanliness.  
Milk is one of the most perishable of foods. It will not remain in good condition more than a few hours, when produced under the best conditions.

Has Done a Good Job.  
Being a lumberman and farmer, and doing a good job at both, comes as near fulfilling one's mission in life as anything.

In his later days Mr. Corey, is following sentimental lines and is writing poetry, not for remuneration, but for a pastime, believing that occasionally he can recite a few verses that are well received.

Mr. Corey was born in Calhoun county, Michigan, in 1848, lived in Grand Rapids, where as a boy of eight years he went to school in an old-time district school, following a blazed trail to get there.

THE WATCHWORD OF THE CAREFUL DAIRYMAN SHOULD BE "CLEANLINESS AND COOLNESS"

Having a high regard for the work of the dairyman, it is not surprising that the dairyman should always be cleanline and low temperatures, but more especially so during the warm season.

The second point, that of checking the growth of bacteria, can be accomplished by cooling the milk to a low temperature, 50 degrees F. or below, because bacteria do not readily grow at this temperature.

Added to the above it should be stated that milk should not be handled or stored in the stable. It is much better to have a separate milk room.

Water for Cut Worms.  
Keep a bucket of water with the cut worms. Plants that are newly set out may be protected by making a collar of stiff paper and inserting it in the ground about the plant.

Keep Record of Cows.  
Every dairyman who wishes to improve his stock should keep milk records of individual cows.

Tobacco Spray Destroys Grape Insect.  
Washington, D. C.—The insect known as the grapehopper, that has seriously menaced the vineyards of Ohio and Michigan may be controlled by the use of a tobacco spray.

The Triad, Trusted Remedy

BUSINESS AND THE TARIFF

Secretary McAdoo Tells a Little Story to Illustrate 'What I Think of Effect Will Be.  
"Since both the tariff and the currency bills come within the scope of the treasury department, it is natural that newspaper men should go there to query the chiefs with questions about their probable effect on business."

Effect Will Be.  
"Boys," said Secretary McAdoo recently, "there's nothing to it. The country has been subjected to revisions before, and always has survived them successfully."

"Would you believe it now, Miss Spauld?" said the general store young man as he mopped his brow, "I weigh all of two hundred and fifty pounds!"

Miss S. (lighly)—I suspected as much. Just now when we were dancing and you stepped on my foot.

G. S. Y. M.—Oh, I'm sorry. Please forgive me. The very first thing in the morning I'll go on a diet.

Never look a gift horse in the mouth or a present in the price mark.

MRS. PINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Vegetable Compound and be Restored to Health.

Kansas City, Mo.—"The doctors told me I would never be a mother. Every month the pains were so bad that I could just see when we would not bear my weight on one foot."

I began taking Lydia E. Pinkham's Vegetable Compound and I took it until it

made me sound and well, and I now have two fine baby girls. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for what it has done for me.

Read What Another Woman says: Cumming, Ga.—"I took my woman every day of Lydia E. Pinkham's Vegetable Compound and what it has done for me. I could not eat or sleep, had a bad stomach and was in misery all the time."

It is contemplated to organize the services of England's city trumpeters, and in future, when occasion arises, to employ trumpeters of the Household in civil functions and processions.

London has had its own trumpeters since 1814. At present they consist of two companies of six soldiers, who have a small retaining fee and are paid when their services are required— which happens four or five times in the year.

The Army of Constipation  
Is Growing Smaller Every Day.
