

Sick Women Attention

A Western Canada Farmer Writes as to Conditions.

A. G. Hansen is a farmer living near Clavet, Sask., and as an old resident of Sask., takes strong exception to some of the articles appearing in American papers disparaging the true conditions in Western Canada.

"The district in which we live is a fair comparison to any other district in the country, made up mostly of settlers from the States. The majority here consists of Americans from Minnesota, Iowa and the Dakotas, with a few Canadians and an odd Englishman."

"The laws of Canada are nearly the same as those of Minnesota, and we are no more oppressed here than we are in that State."

"I have always observed that the people who love their Mother Country are the people who are the best citizens of their adopted country."

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world?

From Mrs. S. T. Richmond, Providence, R. I. "For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me."

From Mrs. Maria Irwin, Peru, N. Y. "Before I took Lydia E. Pinkham's Vegetable Compound, my life was very irregular and had much to suffer from."

From Mrs. Jane D. Duncan, West Quincy, Mass. "The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief."

FACTS ABOUT THE MORTGAGE

For One Thing, as a Tireless Worker It May Be Said to Hold the Record.

A mortgage makes a man rustic and it keeps him poor. It is a strenuous incentive to action, and a wholesome reminder of the fleeting months and years.

A mortgage represents industry, because it is never idle, night or day. It is like a boom driver, because the charges, nor fear to close in on the enemy.
