I never sold anything that I am as enthusiastic over as I am the new Edison Diamond Disc Phonograph. It's simply wonderful. It really recreates music so that if you hear it and do not know that it is the phonograph, you think it is the original music itself. In our Ford Market Booth we have had people who, hearing it in the distance, have come in expecting to see the singer in the flesh. It adds nothing to, nor does it take anything from the original. It simply recreates the original sounds.

IT IS ALWAYS A PLEASURE

In selling other phonographs, as I have in the past, when one would say they would soon get tired of them, I could not say they would not, for I knew they might, for one does get tired of the talking machine noises and strident notes and unpleasant mechanical sounds common to all other phonographs. But there is none of this in the Edison. There is nothing to irritate the most sensitive ear.

OTHERS ARE CHEAPER

There are people, however, who will like other phonographs better, for some people like a lot of noise and crashing sounds, and to all such I would say get the other kind, for they are somewhat cheaper. You can get a more fancy case than you can in Edison for the same money. Still to say nothing about the superiority of the wonderful tone value of the Edison. It has so many other advantages over other kinds that I don't know but what it is still the best value. There are no needles to change on the Edison and the diamond point is good for 40 or 50 years. Besides the trouble changing needles it frequently will happen that perhaps you have company drop in and wish to entertain them and you are out of needles. That will be exasperating.

SUPERIOR RECORDS. The Edison Record is practically unbreakable. It is good for 6,000 playings, while other Records are done for with 65 to 75 playings. The Edison is about twice as long as other records of the same size on account of their being 150 instead of 178 lines to the inch as on other phonographs.

IN A CLASS BY ITSELF

But I do not ask you to buy an Edison on account of these advantages, but because it does not simply reproduce sounds that are something like the original, but it really re-creates the original music, so that before critical audiences, as the recent one at the Hotel Statler, the Edison's reproduction of an artist's voice could not be told from the artist's own voice.

WHY I AM ENTHUSIASTIC OVER SELLING THE EDISON.

I am enthusiastic over selling a person an Edison, for I am selling one something that will be a continual source of pleasure of which they will never tire, and which if anyting, I may say, will induce them to buy one, they will always be thankful for having been induced to get one.

Special Terms

I am offering the following very special terms, so the Holiday demands on the pocketbook need not interfere with one's adding an Edison to their enjoyments of the Holiday Season.

Select your Edison now and buy a few records, and we will deliver it when wanted and you can start paying for it February 1, 1916.

ORDER NOW

To be sure of getting an Edison for Christmas, you will have to order now, for there will surely not be enough Edisons to supply the demands, for we are selling them very rapidly.

SERVICE

We don't stop at selling a person an Edison, but we will give you service in taking care of it and attending to any trouble you might have.

And we also carry a complete line of records at our Ford Market Booth, Highland Park.
