

HOME BEAUTY

Flowers and Shrubs

Their Care and Cultivation

The Largest Chrysanthemum in the World.

THE CHRYSANTHEMUM

No flower can boast of a more aristocratic ancestry than the chrysanthemum. There is reason for its haughty demeanor and often insolent expression. For the golden facing yellow beauty is able to trace its lineage back to the royal gardens of some forgotten kingdom, who admired its forerunners many centuries ago.

The origin of the flower as the pet of royalty is in the east; twelfth of eastern history; it was probably cultivated in the early days of Confucius, and has certainly been transplanted in the Orient from time immemorial. The emblem and crest of the mikado of Japan are the leaf and flower of the chrysanthemum.

The first appearance of the flower in Europe was probably in 1774, when specimens found their way to the botanical gardens of old Chelsea, England. These were some of the earliest things and did not arouse much enthusiasm. Not very much was done with the chrysanthemum in England until about 1825.

Method of chrysanthemum culture given by a leading horticulturist is as follows: To produce the best results the young shoots should be planted in three-inch pots early in the spring and in six weeks transferred to five-inch pots. As soon as the plants have attained a height of nine or ten inches they should be "pinched back," that is an inch or so of the center of the plant should be pinched off. This causes the plants to become "bushy," as it checks the tendency of an upward, spindly growth. If the plants are depressed this pinching back process should be repeated every two weeks until August. The plants will be at their time have attained a height of about two feet. By October they will have increased another foot in height and each plant will have from fifteen to thirty shoots.

yourself. One of the best ways to show neighborliness is to keep your chrysanthemum stock at home and look after your part of the life force.

There is no secret about the success of a man who adopts the best methods and works them.

Mixing compost rough for flower pots means without lifting it.

Roman hyacinths are best for late setting, as they come into bloom much earlier than the Dutch varieties. Each bulb throws up several flower spikes.

Full planting is best for pinks.

Don't be too severe on your plants in summer, but at the same time let

A Little Money Spent for Tools and Time Employed During the Cold Weather Toward Making Beauty Spots for Summer is Time Well Spent.

them understand you hold the reins and they cannot run riot.

The cause of bedding plants is the Philoxera Drummondii. Sow where they are to grow, in the rich soil, and thin the tall ones so that they stand about ten inches apart, and the dwarf six inches apart. Give them rich soil, plenty of water and watch the results.

FIRESIDE GARDENING

Each year should add something to the wisdom of the gardener. To succeed, the planting must be the outcome of continued thought.

In the leisure of the winter days the various bulletins and reports from the many organizations should be used as tools to the ambitious gardener.

The mere facts they contain are not so valuable as the suggestions and enthusiasms for which they are responsible, as no sensible person can afford these pamphlets by practical men without wishing to emulate their successes or avoid their failures.

The year's gardening should be mapped out and planned by the winter frosts. Formulas for insecticides and fungicides should be formulated and the material for their compounding should be procured.

Apparatus for applying them should be studied, made or purchased.

Markets and marketing should be carefully considered and the whole business gone over from various points of view.

SOME NOTES IN SEASON

Better spend a little money for garden tools and keep a box or two handy where you can keep odds and ends of bolts, burrs, staples, scraper, etc. Little help that saves money and a trip to town.

Rest Your Horse Plants—A New Malignant Hair Fern—A Beautiful Specimen for the Home.

MARKET QUOTATIONS

Live Stock.

DETROIT—Cattle—Market steady; best heavy steers, \$7.25; best heavy weight butcher steers, \$6.67; fair heavy steers, \$5.60; light butchers, \$6.00; light butchers, \$5.00; best cows, \$4.50; common cows, \$3.75; canners, \$2.00; best heavy bulls, \$5.00;ologna bulls, \$4.75; \$5.25; ologa bulls, \$4.10; feeders, \$3.50; stockers, \$4.00; milkers and springers, \$4.07.

Veal Calves—Market steady; best grades, \$10.00; others, \$7.00.

Sheep and lambs—Market steady; best lambs, \$2.00; fair lambs, \$1.75; \$1.50; light to common lambs, \$1.00; yearlings, \$1.50; fair to good sheep, \$3.50; culls and common, \$1.47.

Hogs—Market, 10c lower; pigs \$5.50, others \$6.00.

EAST BUFFALO—Receipts of cattle, 40 cars; market very slow; heavy and shipping grades 23c; lower; butcher stock 15c; yearlings, \$7.50; \$8.50; calves to prime shipping steers, \$8.50; fair to good \$7.50; \$7.75; fair to good \$7.25; Canadian calves, 1.00 to 1.10; \$1.00; \$1.10; \$1.20; \$1.30; \$1.40; \$1.50; \$1.60; \$1.70; \$1.80; \$1.90; \$2.00; \$2.10; \$2.20; \$2.30; \$2.40; \$2.50; \$2.60; \$2.70;
