Canada is Calling You to her Rich Wheat Lands

She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

160 ACRE FARMS IN WESTERN CANADA FREE

This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with wheat around $1 a bushel, and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada but there is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Safety Appliance Lacking.

"Didn't you say," demanded the young man of the easthan, "that this ship was equipped with all appliances for human safety?"

"I did."

"Then how does it happen that I now find myself engaged to a lady I did not know when the vessel left her pier?"—Judge.

FRUIT-LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother's ill coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

Rash Wish Regritted.

Once when Strickland Gillilan was lecturing at the home of "Tama Jim" Wilson (Tama, Ia.) the afternoon was dark in the big Chautauqua pavilion, and the speaker was in almost total eclipse.

"Taffy" Sears, a fellow-lecturer, standing near the back of the building, heard a woman whisper:

"My! I wish they'd turn on the footlights so we could see his face!"

Pretty soon the lights flashed up. She caught a good look at the homely and expressionless mug of him, and she exclaimed far more fervently:

"My! I wish they'd turn out those footlights!"—Judge.

MONEY MOST WISELY SPENT

Millions Expended in the Campaign Against Tuberculosis Will Surely Have Its Effect.

More than 20,500,000 was spent last year in the campaign against tuberculosis in the United States. Of this sum 66.8 per cent was derived from public funds, either federal, state, county or municipal, and the remainder was contributed by private philanthropy. These are some of the interesting figures contained in the annual statistical statement of the National Association for the Study and Prevention of Tuberculosis, made public recently. The statement is based largely on actual reports received from antituberculosis agencies located throughout the country, but where reports are not available, the figures have been estimated.

Institutional care and treatment of consumptives in hospitals and sanatoria made up the largest share of the total expenditure. More than $17,300,000 was spent for this purpose, with an additional $925,000 for special treatment of tuberculosis insane and prisoners. These figures include not only the cost of maintenance, but in some instances the cost of construction of institutions. Antituberculosis associations spent the next largest sum, amounting to a little over $900,000. Care of patients in dispensaries, and by visiting nurses cost almost as much, approximately $860,000. The growth of the open-air school movement is shown in the fact that last year more than $300,000 was spent for this purpose, as against $10,000 expended five years ago. State and city boards of health spent $200,000 directly on tuberculosis work.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush, and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks, glossy, soft and abundant. Adv.

RUSSIANS CLAIM CRUSHING DEFEAT OF TURKISH CORPS

Czar's Forces Said To Have Driven Ottoman Army Back In Caucasus.

ONE ENTIRE ARMY CORPS BELIEVED CAPTURED

Russians Also Claim to Have Taken Important Austrian Oil Fields in the Uzsek Pass of Carpathians.

London—Advices from Petrograd contain official announcement of a complete and decisive victory over the Turkish forces in the Caucasus.

One entire Turkish army corps, believed to number 40,000 men, was captured and the other forces were completed routed, according to the war office statement.

The Turkish troops that escaped were being pursued by the Russians, said the latest reports from the front.

Survivors in Full Flight.

It appears from all the information available that two of the three Turkish columns which last week invaded Transcaucasia have met with disaster, and that the troops not captured or killed are now practically surrounded or in full flight.

The column which took Ardahan, 50 miles inside the Russian frontier, two days ago, has been driven out of that town, according to the Petrograd official dispatches, and is almost surrounded by the Russians, who hold the main roads.

Another column, which crossed the frontier near Sari Kamysh, on the road to Kars, has suffered no even worse defeat, one of the two army corps which composed it being captured in its entirety.

The Russians also report another victory over the Austrians in the Uzsok pass of the Carpathians. Emperor Francis Joseph's army in this region is declared to be in full retreat in a mountain pass deep in snow, while a vigorous counter-move made the Russian cavalry is attacking on the flank and rear.

Capture Austrian Oil Fields.

By forcing this pass, the Russians gain control of some of the most valuable oil fields in the Austrian empire, and thus shut off another of the sources of fuel supplies which the Austro-German armies are said to so much need.

This, however, has only been part of the Russian task. While forcing back the Turks and Austrians, the Russian troops are holding the line of the Mazurian lakes in East Prussia; are fighting strenuously to withstand the German offensive in north Poland; are advancing towards Cracow and have crossed Bukowina, which is now virtually in their possession.

The Russian general staff still maintains official silence in regard to the new invasion of Hungary by the Russian armies but from many points there comes information that the movement is well under way. A dispatch from Petrograd says that eight towns on the Hungarian plains have already been occupied and that 200,000 men are marching towards Budapest.

QUARREL RESULTS IN DEATH

Kicking of Dog Leads to Fight Which Ends Fatally.

Gaylord—Don McIntyre, is in jail here charged with the murder of Henry Selwell, 50 at Chris Johnsen's camp, 12 miles east of here, Sunday evening.

A quarrel was precipitated when Selwell kicked a dog and a remark made by McIntyre so enraged Selwell that he struck McIntyre with an iron rod. McIntyre then picked up a broken whiffletree and hit Selwell on the head, killing him almost instantly. McIntyre asserts he acted in selfdefense.

Selwell had lived in this county about a dozen years and bore a good reputation. His wife and two children are spending the winter in Florida. A daughter teaches a rural school near here.

BRIEF NEWS OF THE WAR

Ottawa—The Canadian parliament has been called to meet Feb. 14. A short session confined to consideration of war measures is expected.

London—Sunday was a day of prayer throughout England. Special services for the success of the allies were held in all churches of all denominations.

Washington—A resolution authorizing the president to invite all nations to send delegates to a convention to provide for disarmament, for the creation of an international legislature, and for an international army and navy police, was introduced in the house Saturday by Representative Curtis.

Lima, Peru.—The government authorities have received information that two Japanese warships will soon arrive at Callao. The warships are said to be part of a squadron of 12 vessels now in the Pacific.

London—The London Daily Mail has received from its Sluis correspondent a report that several British warships steamed close to the shore and fired five shells into Zeebrugge, the Germans' base for hydro-aeroplanes. The coast batteries answered, but missed the vessels.

Michigan Happenings

Houghton.—Three men were buried by a fall of ground caused by an "air blast" in the Quincy mine, and when they were dug out one, Jacob Koskela, was dead.

Port Huron.—H. H. Zemmer, who has been a missionary in East Africa, has just arrived at his home in Columbiaville, after an exciting trip. Mr. Zemmer and his family were 51 days on the ocean. They left Nera, German East Africa, July 2.

Bessemer.—The Castile mine, near Wakefield, in this county, which has been closed since October, will resume operations after the opening of the new year, with about one hundred men employed. Indications point to a general resumption of mining along the whole Gogebic range in the near future.

Port Huron.—Shortly after she left the Elks' watch night services, Mrs. William Hasman, a well known resident of this city, and prominent as a church singer, dropped dead. Mrs. Hasman was connected with the choir of the First Congregational church and had been identified with the musical circles of Port Huron for many years.

Lansing.—Governor Ferris reappointed Major Nesbett as his private secretary for another two years and E. Clark Austin as executive clerk. Attorney General Fellows reappointed his entire staff in the department. They are Andrew Dougherty, deputy, and assistants Crowley, Martindale, Pepper, Carr, Greer and Retan.

Calumet.—An "air blast," similar to an explosion of damp, which shook the city of Hancock, occurred in unused workings of Quincy copper mine, located north of Portage lake, killing Jacob Koskela, fifty years old, miner, and fatally injuring Frank Lunes, forty-two, and slightly injuring an assistant, Fred Kobe. The three were buried beneath tons of rock, shaken loose by the blast.

Flint.—The force of Sheriff Frank Green was reduced to half its size by the cutting off of salaries of all deputies outside of Flint. When the supervisors made up the year's budget they cut off the pay of five deputies outside of Flint, beginning with January 1st, 1915. This leaves no deputies in the county except the four attached to the sheriff's office here and all the outside work will devolve on the local force.

Ann Arbor.—The Pere Marquette railroad, the financial affairs of which have been under the supervision of investigation recently, has a reproduction value of $96,962,777, according to an appraisal compiled by Dean Mortimer E. Cooley of the University of Michigan, and submitted to the receivers of the road and the state railway commission. The reproduction cost, less depreciation, is fixed by Dean Cooley at $78,545,241. Mr. Cooley, appointed by state authorities, with a staff of assistants has been at work on the appraisal during the last eight months. The cost of the road a mile is figured at $45,292, or $36,770 less depreciation. There are 2,586.79 miles of track in Michigan and 2,966.87 miles in five states and Canada.

Lansing.—The state live stock sanitary commission received final orders from Washington regarding the modified stock quarantine in Michigan. The Michigan commission obtained all of the modifications it desired. As the ruling stands now its chief points are: Upper peninsula absolutely released from all quarantine; lower peninsula north of Montcalm county free to outgoing shipments of all animals for slaughtering purposes, without inspection, but inspected necessary on stock for breeding purposes; remainder of southern peninsula, outgoing shipments clear without inspection, except within the five-mile radius of an infected area; incoming shipments of feeders possible, but only to places designated by state commission.

Detroit.—Thomas Hewitt, fifty-two years old, a Michigan Central railroad conductor, was killed and three men were slightly injured when the rear truck of a Baker line car took the wrong tracks at Baker and Twenty-third street and sent the car crashing against a telegraph pole standing which Hewitt was leaning. Hewitt, whose head and chest were crushed, was rushed to the Boulevard sanitarium, but died on the way. The other men injured were Walter Hover, who had three ribs broken; Rose Soboso, 876 Campbell avenue, whose hand was lacerated, and Ira Cicotte, brother of Eddie Cicotte, the ball player, whose finger was dislocated. Hewitt, who has escaped death a dozen times in his long career as a railroad man, only to be killed while standing in what seemed a perfect safety on a street corner, is survived by his wife and three children, Mrs. Frank Kerber of Detroit, Mrs. George Colbyn, Battle Creek, and Robert, a fireman on the Michigan Central.

Ann Arbor.—That Gottlob Bauer unlawfully appropriated $1,150 belonging to the estate of the late Melita Bauer, of which Attorney George Sample is the administrator, and that the Ann Arbor Savings bank paid out this sum on the pass book owned by the dead woman, is the charge made in a suit started by Sample against the bank and Mr. Bauer. It is alleged that the day of Miss Bauer's death, January 31, 1914, Gottlob Bayer drew the money from the bank without being empowered to do so by the probate court. Suit started is for $1,300.

Rochester.—James Fox, seventy-four years old, living near Rochester, one of the most prominent farmers in this vicinity, died after an illness of three weeks. He was a member of the local lodge of Odd Fellows for more than forty years.

Dearborn.—Anthony Degen of Dearborn, who was struck on the arm by a Michigan Central train December 6, died. He was on his way home from church when he misjudged the speed of the train, and was thrown down. Mrs. Degen, worn out by caring for him, is unconscious and does not know of his death.

His Indorsement.

The late Lord Roberts once sent his orderly to the bank to cash a check, says Pearson's Weekly, and the clerk wanted it indorsed.

"What for?" demanded the soldier.

"Well, it's the rule, and I can't pay you the money until you do indorse it," he was told.

"Oh, all right!" grumbled the messenger. So he took back the check and bit the end of a pen in deep meditation for a minute or two. Then he wrote down:

"I beg to say that I have known Lord Roberts for several years, and he has proved himself, times without number, to be a brave man, a hero, and always kindly considerate to the men who served under him. And I have, therefore, great pleasure in respectfully indorsing his check."

STOP EATING MEAT IF KIDNEYS OR BACK HURT

Take a Glass of Salts to Clean Kidneys If Bladder Bothers You—Meat Forms Uric Acid.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.
